**Directions: Read the passage and answer the questions that follow.**

There have been **instances** of hacking of Twitter accounts of eminent personalities like Chief Ministers, Prime Ministers and various organisations like the UCG, etc. in India. Similarly, the handles of Anupam Kher, Rishi Kapoor and Shahid Kapoor were hacked. Internationally, Twitter handles of eminent personalities like Kanye West, Joe Biden, Bill Gates and Jeff Bezos were hacked. This raises an obvious question on the existing security policies of Twitter. The platform has approximately 186 million users, so it is only proper that apprehensions regarding its security policy would and should be voiced.

How has the company reacted? In the past, it used to offer an apology, albeit an unconvincing one. It claimed that hackers tricked people and got access to the account credentials of the users. This was neither assuring nor did it provide any details of how and why it is done and with what purpose. Now, the company doesn't even address the situation with even a clarification. Some details have emerged from the investigative journalism of the website, Vice, whose journalists claimed to have access to the hackers. The revelations were shocking. Hackers boasted about bribing Twitter employees and consequently enabling the hack of the high-profile Twitter accounts.

Does this mean that Twitter has been compromised from within? Is this a pattern?

Undoubtedly, high-profile accounts/handles **wield** enormous influence on opinions/narratives. If such high-profile handles are being easily compromised, then the security measures for common accounts cannot be taken for granted. Twitter, like any other social media company, remains primarily a platform where content is generated by the user. Inconvenience to the user would naturally compel him/her to move elsewhere. It's no wonder that many users are seeking alternatives.

Cyber experts often mention numerous technologies and enabling tools that protect the vital data, but the reluctance shown by Twitter to deploy the same is perplexing. The Indian government is contemplating enacting a comprehensive policy and law on data protection, earlier named the Personal Data Protection Bill, which was proposed by the Joint Parliamentary Committee (JPC) in December last year. While this has been on the cards for a while now, since it has some provisions on which there is currently no broad consensus, hence the Ministry of IT has proposed that it will soon issue a Data Protection Policy framework followed by the law, which will include aspects such as restrictions on the transfer of personal data outside India. It would ensure that the sensitive personal data will not be shared with any foreign government or agency unless approved by the Central government.

The provisions of the proposed legislation would be similar to the global standards like that of the European Union's General Data Protection Regulations. Both emphasise that users must be informed about the way their data would be processed and in case of any difference of opinion they can opt out. Even the Supreme Court of India in its landmark decision in the Puttaswamy judgement has clearly **elevated** privacy as a fundamental right of the individual, which is not only enforceable against the state but also at a private contract level. The ever-growing digital economy offers huge potential for economic growth, but in the absence of a secure data policy it would be tough to harness the potential that the digital economy has to offer. Twitter can show us and lead the way by just implementing the obvious: protect our data, ensure safety of its users. Else as they say, the market is **brutal!**

• Question No. 16

Which of the following can be inferred as the theme of the passage?

**Options :**

1. Social media: An insecure place for everyone, irrespective of rank or position.
2. Hacking of high-profile accounts: Has Twitter given up to the hackers?
3. How can people protect their social media accounts from hackers.
4. New techniques used by hackers to get information from account holders.

5. Advancements in technology: Indian government keen on protecting privacy of social media users around the globe.

Answer : Hacking of high- profile accounts: Has Twitter given up to the hackers?

Direction:

**Directions: Read the passage and answer the questions that follow.**

There have been **instances** of hacking of Twitter accounts of eminent personalities like Chief Ministers, Prime Ministers and various organisations like the UCG, etc. in India. Similarly, the handles of Anupam Kher, Rishi Kapoor and Shahid Kapoor were hacked. Internationally, Twitter handles of eminent personalities like Kanye West, Joe Biden, Bill Gates and Jeff Bezos were hacked. This raises an obvious question on the existing security policies of Twitter. The platform has approximately 186 million users, so it is only proper that apprehensions regarding its security policy would and should be voiced.

Even the Supreme Court of India in its landmark decision in the Puttaswamy judgement has clearly **elevated** privacy as a fundamental right of the individual, which is not only enforceable against the state but also at a private contract level. The ever-growing digital economy offers huge potential for economic growth, but in the absence of a secure data policy it would be tough to harness the potential that the digital economy has to offer. Twitter can show us and lead the way by just implementing the obvious: protect our data, ensure safety of its users. Else as they say, the market is **brutal!**

- Question No. 17

How Twitter used to react to the complaints of hacking of profiles in the past?

**Options :**

1. It recovered the person's account and erased the data that was posted by the hackers.
2. When a complaint arose, Twitter used to take appropriate steps to prevent such incidents in the future.
3. Twitter used to handle the incident professionally in the past, by involving their PR team
4. Twitter offered an apology and gave a vague reason, whenever an incident happened.
5. Twitter never replied to any complaint raised by its users.

**Answer :** Twitter offered an apology and gave a vague reason, whenever an incident happened.

**Directions: Read the passage and answer the questions that follow.**

There have been **instances** of hacking of Twitter accounts of eminent personalities like Chief Ministers, Prime Ministers and various organisations like the UCG, etc. in India. Similarly, the handles of Anupam Kher, Rishi Kapoor and Shahid Kapoor were hacked. Internationally, Twitter handles of eminent personalities like Kanye West, Joe Biden, Bill Gates and Jeff Bezos were hacked. This raises an obvious question on the existing security policies of Twitter. The platform has approximately 186 million users, so it is only proper that apprehensions regarding its security policy would and should be voiced.

How has the company reacted? In the past, it used to offer an apology, albeit an unconvincing one. It claimed that hackers tricked people and got access to the account credentials of the users. This was neither assuring nor did it provide any details of how and why it is done and with what purpose. Now, the company doesn't even address the situation with even a clarification. Some details have emerged from the investigative journalism of the website, Vice, whose journalists claimed to have access to the hackers. The revelations were shocking. Hackers boasted about bribing Twitter employees and consequently enabling the hack of the high-profile Twitter accounts.

Does this mean that Twitter has been compromised from within? Is this a pattern?

Undoubtedly, high-profile accounts/handles **wield** enormous influence on opinions/narratives. If such high-profile handles are being easily compromised, then the security measures for common accounts cannot be taken for granted. Twitter, like any other social media company, remains primarily a platform where content is generated by the user. Inconvenience to the user would naturally compel him/her to move elsewhere. It's no wonder that many users are seeking alternatives.

Cyber experts often mention numerous technologies and enabling tools that protect the vital data, but the reluctance shown by Twitter to deploy the same is perplexing. The Indian government is contemplating enacting a comprehensive policy and law on data protection, earlier named the Personal Data Protection Bill, which was proposed by the Joint Parliamentary Committee (JPC) in December last year. While this has been on the cards for a while now, since it has some provisions on which there is currently no broad consensus, hence the Ministry of IT has proposed that it will soon issue a Data Protection Policy framework followed by the law, which will include aspects such as restrictions on the transfer of personal data outside India. It would ensure that the sensitive personal data will not be shared with any foreign government or agency unless approved by the Central government.

The provisions of the proposed legislation would be similar to the global standards like that of the European Union's General Data Protection Regulations. Both emphasise that users must be informed about the way their data would be processed and in case of any difference of opinion they can opt out. Even the Supreme Court of India in its landmark decision in the Puttaswamy judgement has clearly **elevated** privacy as a fundamental right of the individual, which is not only enforceable against the state but also at a private contract level. The ever-growing digital economy offers huge potential for economic growth, but in the absence of a secure data policy it would be tough to harness the potential that the digital economy has to offer. Twitter can show us and lead the way by just implementing the obvious: protect our data, ensure safety of its users. Else as they say, the market is **brutal!**

• Question No. 26

Which of the following is not correct, according to the passage?

**Options :**

1. Some reports state that hackers bribe Twitter employees to get the details of high-profile Twitter accounts.
2. The content in Twitter is generated by the user, like other social media platforms.
3. According to Personal Data Protection Bill, foreign apps will be restricted in India.

4. The provisions of the Data Protection Policy would be similar to the global standards like that of the European Union's General Data Protection Regulations.

5. Twitter can protect the data and ensure the safety of its users, thus ensuring the economic growth.

Answer : According to Personal Data Protection Bill, foreign apps will be restricted in India.

**Options :**

1. if  $x > y$
2. if  $x < y$
3. if  $x \geq y$
4. if  $x \leq y$
5. if  $x = y$  or the relationship cannot be established

Answer : if  $x \geq y$

Direction:

**In the following questions two equations are given. You have to solve both the equations and give the answers:**

- Question No. 43

I.  $3y^2 + 13y - 16 = 0$

II.  $3x^2 - 13x + 14 = 0$

**Options :**

1. if  $x > y$
2. if  $x < y$
3. if  $x \geq y$
4. if  $x \leq y$
5. if  $x = y$  or the relationship cannot be established

Answer : if  $x > y$

Direction:

**In the following questions two equations are given. You have to solve both the equations and give the answers:**

- Question No. 44

I.  $2x + 3y = 5$

II.  $3x + 4y = 9$

**Options :**

1. if  $x > y$
2. if  $x < y$
3. if  $x \geq y$
4. if  $x \leq y$
5. if  $x = y$  or the relationship cannot be established

Answer : if  $x > y$

Direction:

**In the following questions two equations are given. You have to solve both the equations and give the answers:**

- Question No. 45

I.  $4x^2 - 18x - 36 = 0$

II.  $6y^2 + 20y + 16 = 0$

**Options :**

1. if  $x > y$
2. if  $x < y$
3. if  $x \geq y$
4. if  $x \leq y$
5. if  $x = y$  or the relationship cannot be established

Answer : if  $x = y$  or the relationship cannot be established

• Question No. 46

Rahul goes to a place on a bicycle at a speed of 22 kmph and comes back at a speed of 20 kmph. If the time taken by him in second case is 36 min more than that of in first case, what is the total distance travelled by him (in km)?

Options :

1. 112 km
2. 156 km
3. 132 km
4. 123 km
5. None of these

Answer : 132 km

• Question No. 47

The average of sixty observations was calculated as 30. It was found later, that 45 and 46 of the observation were misread as 54 and 64 respectively. What is the correct average?

Options :

1. 19.25
2. 24.23
3. 31.01
4. 29.55
5. None of these

Answer : 29.55

• Question No. 48

A man swimming in a stream which flows 2.5 kmph finds that in a given time he can swim thrice as far with the stream as he can against it. How much distance he will cover in 4 hours against the current?

**Options :**

1. 7 km
2. 10 km
3. 9 km
4. 12 km
5. None of these

Answer : 10 km

• Question No. 49

Two barrels contain a mixture of petrol and diesel. The content of petrol is 40% in the first barrel and 70% in the second barrel. In what ratio must the mixtures from the first and the second barrels be taken to form a mixture containing 55% diesel?

**Options :**

1. 5:2
2. 1:5
3. 7:3
4. 5:1
5. None of these

Answer : 5:1

• Question No. 50

How many liters of a 30% sugar solution should be added to 40 liters of a 60% sugar solution to prepare a 50% solution?

**Options :**

1. 10 liters
2. 15 liters
3. 20 liters
4. 30 liters
5. None of these

Answer : 20 liters

• Question No. 51

Himank bought a laptop and paid 10% less than the original price. He sold it with 30% profit on the price he had paid. What percentage of profit did Himank earn on the original price?

**Options :**

1. 17%
2. 11%
3. 15%
4. 22%
5. None of these

Answer : 17%

• Question No. 52

If Rs. 1000 is to be invested at interest rate of 5% and after 10 years, total interest is added to the principal, then the total number of years from beginning in which it will amount to Rs. 2000 is?

- (i)  $12\frac{2}{5}$  years
- (ii)  $16\frac{2}{3}$  years
- (iii)  $11\frac{2}{3}$  years
- (iv)  $11\frac{3}{4}$  years

(v) None of these

**Options :**

1. (i)
2. (ii)
3. (iii)
4. (iv)
5. (v)

Answer : (ii)

• Question No. 53

The respective ratio among the present age of A, B and C is 3 : 4 : 5. If the average of their present age is 28 years then what would be the sum of the age of A and B together after 5 years?

**Options :**

1. 60 years
2. 45 years
3. 59 years
4. 39 years
5. None of these

Answer : 59 years

• Question No. 54

A man covers  $\frac{1}{3}^{\text{rd}}$  of his journey by cycle at 50 kmph, the next  $\frac{1}{3}^{\text{rd}}$  by car at 30 kmph and the rest by walking at 7 kmph. Find the average speed during the whole journey?

**Options :**

1. 15.29 kmph
2. 11.21 kmph
3. 19 kmph

- 4. 12.66 kmph
- 5. None of these

Answer : 15.29 kmph

• Question No. 55

The simple interest accrued on a sum of certain principal is Rs. 2000 in five years at the rate of 4 p.c.p.a. What would be the compound interest accrued on same principal at the same rate in two years?

**Options :**

- 1. Rs. 521
- 2. Rs. 816
- 3. Rs. 600
- 4. Rs. 756
- 5. None of these

Answer : Rs. 816

Direction:

What should come in place of question mark (?) in the following simplification problems?

• Question No. 56

$$8888 + 848 + 88 - ? = 7337 + 737$$

**Options :**

- 1. 1521
- 2. 1816
- 3. 1600
- 4. 1556
- 5. 1750

Answer : 1750

Direction:

What should come in place of question mark (?) in the following simplification problems?

- Question No. 57

$$618 + 62 \times 0.50 - 29 = ?$$

**Options :**

1. 521
2. 320
3. 620
4. 556
5. 750

Answer : 620

Direction:

**What should come in place of question mark (?) in the following simplification problems?**

- Question No. 58

$$25.6\% \text{ of } 250 + \sqrt{?} = 119$$

**Options :**

1. 3136
2. 3025
3. 2025
4. 2916
5. 4356

Answer : 3025

Direction:

**What should come in place of question mark (?) in the following simplification problems?**

- Question No. 59

$$555.05 + 55.50 + 5.55 + 5 + 0.55 = ?$$

**Options :**

1. 313.65
2. 621.65
3. 202.55
4. 291.46
5. 435.26

Answer : 621.65

Direction:

**What should come in place of question mark (?) in the following simplification problems?**

- Question No. 60

$$(46351 - 36418 - 4505) \div ? = 1357$$

**Options :**

1. 3
2. 6
3. 5
4. 2
5. 4

Answer : 4

Direction:

**What should come in place of question mark (?) in the following simplification problems?**

- Question No. 61

$$3.2\% \text{ of } 500 \times 2.4\% \text{ of } ? = 288$$

**Options :**

1. 803
2. 566

3. 750

4. 620

5. 440

Answer : 750

Direction:

What should come in place of question mark (?) in the following simplification problems?

- Question No. 62

$$?\% \text{ of } 800 = 293 - 22\% \text{ of } 750$$

Options :

1. 8

2. 36

3. 20

4. 16

5. 10

Answer : 16

Direction:

What should come in place of question mark (?) in the following simplification problems?

- Question No. 63

$$4(5/6) - 5(5/9) = ? - 2(1/3) + 11/18$$

Options :

1. 0.1

2. 1.1

3. 1

4. 1.6

5. 2

Answer : 1

Direction:

What should come in place of question mark (?) in the following simplification problems?

- Question No. 64

$$3\frac{1}{3} - 6\frac{3}{7} \times 1\frac{1}{2} \times \frac{22}{7} = ?$$

Options :

1.  $30/11$
2.  $29/7$
3.  $13/2$
4.  $22/9$
5.  $42/5$

Answer :  $22/9$

Direction:

What should come in place of question mark (?) in the following simplification problems?

- Question No. 65

$$2\frac{5}{9} \times 3\frac{4}{5} + ? = 12\frac{1}{5}$$

Options :

1.  $3(20/11)$
2.  $2(22/45)$
3.  $1(23/31)$
4.  $3(12/19)$
5.  $42/5$

Answer :  $2(22/45)$

- Question No. 66

If a meaningful word can be formed using the 3rd, 4th, 7<sup>th</sup> and 10th alphabet of the word “PUBLICATIONS” using each letter only once, second letter of that word is your answer. If more than one such word can be formed, your answer is M. If no such word can be formed, your answer is N.

**Options :**

1. N
2. B
3. O
4. M
5. A

Answer : N

• Question No. 67

How many pairs of letters are there in the word “DEFINITION” each of which have as many letters between them in the word as they have between them in the English alphabetical series?

**Options :**

1. Three
2. None
3. Four
4. Seven
5. Five

Answer : Seven

Direction:

**Study the following information carefully and answer the questions given below:**

Point M is 30m north of point N. Point R is 23m south of point Q. Point S is 18m west of point T, which is mid-point of M and N. Point Q is 10m east of point P. Point O is 25m west of point R. Point P is 8m north of point S.

• Question No. 68

What is the direction of point M with respect to point O?

**Options :**

1. South-west
2. East
3. South
4. North-east
5. None of these

Answer : North-east

Direction:

**Study the following information carefully and answer the questions given below:**

Point M is 30m north of point N. Point R is 23m south of point Q. Point S is 18m west of point T, which is mid-point of M and N. Point Q is 10m east of point P. Point O is 25m west of point R. Point P is 8m north of point S.

- Question No. 69

What is the shortest distance between Q and S?

**Options :**

1.  $\sqrt{131}$ m
2. 22m
3.  $\sqrt{164}$ m
4.  $\sqrt{274}$ m
5. None of these

Answer :  $\sqrt{164}$ m

Direction:

**Study the following information carefully and answer the questions given below:**

Point M is 30m north of point N. Point R is 23m south of point Q. Point S is 18m west of point T, which is mid-point of M and N. Point Q is 10m east of point P. Point O is 25m west of point R. Point P is 8m north of point S.

- Question No. 70

What is the direction of T with respect to O?

**Options :**

1. West
2. South-west
3. North-east
4. North
5. None of these

Answer : North-east

Direction:

**Study the following information carefully and answer the following question below:**

Eight persons R, S, T, U, V, W, X and Y are sitting around a circular table but not necessarily in the same order. Some of them are facing the centre and some of them are not facing the centre. R sits third to the right of Y. Only two persons sit between Y and S. T sits second to the left of S. Only three persons sit between S and V. U sits second to left of W, who is not an immediate neighbour of R. The immediate neighbours of Y face the same direction as Y. W sits third to the left of R, who faces the centre. The immediate neighbours of R face opposite of R.

- Question No. 71

Who among the following sits third to the right of U?

**Options :**

1. T
2. S
3. R
4. V
5. W

Answer : T

Direction:

**Study the following information carefully and answer the following question below:**

Eight persons R, S, T, U, V, W, X and Y are sitting around a circular table but not necessarily in the same order. Some of them are facing the centre and some of them are not facing the centre. R sits third to the right of Y. Only two persons sit between Y and S. T sits second to the left of S. Only three persons sit between S and V. U sits second to left of W, who is not an immediate neighbour of R. The immediate neighbours of Y face the same direction as Y. W sits third to the left of R, who faces the centre. The immediate neighbours of R face opposite of R.

- Question No. 72

Who among the following are facing the centre?

**Options :**

1. RU
2. RXY
3. RS
4. RUT
5. None of these

Answer : RS

Direction:

**Study the following information carefully and answer the following question below:**

Eight persons R, S, T, U, V, W, X and Y are sitting around a circular table but not necessarily in the same order. Some of them are facing the centre and some of them are not facing the centre. R sits third to the right of Y. Only two persons sit between Y and S. T sits second to the left of S. Only three persons sit between S and V. U sits second to left of W, who is not an immediate neighbour of R. The immediate neighbour of Y face the same direction as Y. W sits third to the left of R, who faces the centre. The immediate neighbours of R face opposite of R.

- Question No. 73

Who among the following sits opposite S?

**Options :**

1. R

- 2. U
- 3. W
- 4. V
- 5. X

Answer : V

Direction:

**Study the following information carefully and answer the following question below:**

Eight persons R, S, T, U, V, W, X and Y are sitting around a circular table but not necessarily in the same order. Some of them are facing the centre and some of them are not facing the centre. R sits third to the right of Y. Only two persons sit between Y and S. T sits second to the left of S. Only three persons sit between S and V. U sits second to left of W, who is not an immediate neighbour of R. The immediate neighbours of Y face the same direction as Y. W sits third to the left of R, who faces the centre. The immediate neighbours of R face opposite of R.

- Question No. 74

How many persons are sitting between X and S, when counted from the right of S?

**Options :**

- 1. Two
- 2. Three
- 3. One
- 4. Four
- 5. Five

Answer : Two

Direction:

**Study the following information carefully and answer the following question below:**

Eight persons R, S, T, U, V, W, X and Y are sitting around a circular table but not necessarily in the same order. Some of them are facing the centre and some of them are not facing the centre. R sits third to the right of Y. Only two persons sit between Y and S. T sits second to the left of S. Only three persons sit between S and V. U sits second to left of W, who is not an immediate neighbour of R. The immediate neighbours of Y face the same direction as Y. W sits third to the left of R, who faces the centre. The immediate neighbours of R face opposite of R.

• Question No. 75

Who among the following sits exactly between Y and R, when counted from the right of Y?

**Options :**

1. YV
2. XV
3. WY
4. SW
5. UW

Answer : XV

Direction:

**Study the below details and answer the following questions.**

Certain numbers of people are sitting in a straight line and all are facing in the north direction.

(i) S is sitting at one of the extreme ends but is not a neighbour of M. T who is sitting at second position from one of the ends, is not a neighbour of M. Only four people are sitting between M and V who is sitting at fifth position from the extreme end.

(ii) U is sitting third to right of S who is neighbour of J. Only two persons are sitting to the right of K who is sitting to the immediate right of R. W is sitting second to left of V.

(iii) Q is sitting between W and V but he is not sitting to right of V. L is sitting at one of the places to right of R. J is sitting to left of U who is sitting to the immediate left of P. Only two persons sit between P and V.

• Question No. 76

Who is sitting third to right of K?

**Options :**

1. None
2. V
3. P

4. Q

5. R

Answer : None

Direction:

**Study the below details and answer the following questions.**

Certain numbers of people are sitting in a straight line and all are facing in the north direction.

(i) S is sitting at one of the extreme ends but is not a neighbour of M. T who is sitting at second position from one of the ends, is not a neighbour of M. Only four people are sitting between M and V who is sitting at fifth position from the extreme end.

(ii) U is sitting third to right of S who is neighbour of J. Only two persons are sitting to the right of K who is sitting to the immediate right of R. W is sitting second to left of V.

(iii) Q is sitting between W and V but he is not sitting to right of V. L is sitting at one of the places to right of R. J is sitting to left of U who is sitting to the immediate left of P. Only two persons sit between P and V.

- Question No. 77

Who is sitting immediate left of L?

**Options :**

1. K

2. J

3. Q

4. M

5. None of these

Answer : None of these

Direction:

**Study the below details and answer the following questions.**

Certain numbers of people are sitting in a straight line and all are facing in the north direction.

(i) S is sitting at one of the extreme ends but is not a neighbour of M. T who is sitting at second position from one of the ends, is not a neighbour of M. Only four people are sitting between M and V who is sitting at fifth position from the extreme end.

(ii) U is sitting third to right of S who is neighbour of J. Only two persons are sitting to the right of K who is sitting to the immediate right of R. W is sitting second to left of V.

(iii) Q is sitting between W and V but he is not sitting to right of V. L is sitting at one of the places to right of R. J is sitting to left of U who is sitting to the immediate left of P. Only two persons sit between P and V.

- Question No. 79

Who among them is sitting at the extreme end?

**Options :**

1. S
2. L
3. J
4. Both S and L
5. None of these

Answer : Both S and L

Direction:

**Study the below details and answer the following questions.**

Certain numbers of people are sitting in a straight line and all are facing in the north direction.

(i) S is sitting at one of the extreme ends but is not a neighbour of M. T who is sitting at second position from one of the ends, is not a neighbour of M. Only four people are sitting between M and V who is sitting at fifth position from the extreme end.

(ii) U is sitting third to right of S who is neighbour of J. Only two persons are sitting to the right of K who is sitting to the immediate right of R. W is sitting second to left of V.

(iii) Q is sitting between W and V but he is not sitting to right of V. L is sitting at one of the places to right of R. J is sitting to left of U who is sitting to the immediate left of P. Only two persons sit between P and V.

- Question No. 80

Who is sitting fourth to the left end of the row?

**Options :**

1. P
2. U
3. M

- 4. W
- 5. None of these

Answer : U

Direction:

**In each question below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts:**

- Question No. 81

**Statements:**

Only a few work is success

No work is hard

All hard are abilities

**Conclusions:**

I. All hard are work is a possibility.

II. Atleast some success are work.

**Options :**

1. Only II follows
2. Either I or II follows
3. Only I follows
4. Both I and II follow
5. Neither I nor II follows

Answer : Only II follows

Direction:

Only a few lake is river

No sea is river

Some mountains are sea

**Conclusions:**

I. No mountain is river

II. Some rivers are mountains

**Options :**

1. Only II follows
2. Neither I or II follows
3. Only I follows
4. Both I and II follow
- 5.

Answer : Neither I or II follows

Direction:

**Study the given information carefully and answer the questions that follow:-**

Ten boxes, A, B, C, D, E, F, G, H, I and J are placed one above the other in any particular manner. Box 1 is at the bottom and Box 10 is at the top.

There are two boxes between F and I. Box J is placed at the bottom. There are three boxes between Box A and Box E. Box I is placed on an even numbered position. Box C is at 8<sup>th</sup> numbered position. Box D is kept immediately below Box C and immediately above Box E. Only Box H is placed between Box G and Box I.

• Question No. 86

Which statement among the following is true?

**Options :**

1. A is placed at 8th position.
2. E is placed exact between D and F.
3. There are three boxes below the Box H.
4. Box F is placed at even numbered position.
5. Box I is immediate below Box E.

Answer : E is placed exact between D and F.

Direction:

**Study the given information carefully and answer the questions that follow:-**
