

• Question No. 1

In the Items. Some parts of these sentence have been jumbled up. You are required to rearrange these parts which are labelled P,Q,R and S to produce the correct and meaningful sentence, choose the proper sequence and mark in your answer.

The Bible the sacred book of all Christians (P) has in many respect(Q) among all the books of the world (R) a unique character and position(S).

Options :

1. PQSR
2. QPRS
3. SRPQ
4. No improvement required
- 5.

Answer : PQSR

• Question No. 2

In the Items. Some parts of these sentence have been jumbled up. You are required to rearrange these parts which are labelled P,Q,R and S to produce the correct and meaningful sentence, choose the proper sequence and mark in your answer.

He will, of course(P) if a foreigner(Q) learn standard English(R) wishes to learn english(S).

Options :

1. QPRS
2. SPRQ
3. QSPR
4. NO IMPROVEMENT REQUIRED
- 5.

Answer : QSPR

• Question No. 3

In the Items. Some parts of these sentence have been jumbled up. You are required to rearrange these parts which are labelled P,Q,R and S to produce the correct and meaningful sentence, choose the proper sequence and mark in your answer.

Spiders these eight-legged bugs(P) build webs (Q) in houses (R) that many people fear(S)

Options :

1. PSQR
2. SQRP
3. QRSP
4. No improvement required
- 5.

Answer : PSQR

• Question No. 4

In the Items. Some parts of these sentence have been jumbled up. You are required to rearrange these parts which are labelled P,Q,R and S to produce the correct and meaningful sentence, choose the proper sequence and mark in your answer.

In the news bulletin (P) did not feature (Q) that this matter (R) it was surprising(S).

Options :

1. PSQR
2. RQPS
3. QSPR
4. SRQP
- 5.

Answer : SRQP

• Question No. 5

In the Items. Some parts of these sentence have been jumbled up. You are required to rearrange these parts which are labelled P,Q,R and S to produce the correct and meaningful sentence, choose the proper sequence and mark in your answer.

Everything was(P) after(Q) plain sailing(R) we engaged a guide(S).

Options :

1. SPQR
2. PQRS
3. SRQP
4. PRQS
- 5.

Answer : PRQS

• Question No. 6

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark 'No error' as your answer (Ignore the errors of punctuation, if any).

Although he is usually (1)/ rude with everyone (2)/ he behaved nice with all of us today.(3)/ no error(4)

Options :

1. 1
2. 2
3. 3
4. 4
- 5.

Answer : 3

• Question No. 7

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark 'No error' as your answer (Ignore the errors of punctuation, if any).

Why were you(1)/ arrested and(2)/ How was you treated in jail?(3)/ No error(4)

Options :

1. 2
2. 1

3. 3

4. 4

5.

Answer : 1

• Question No. 8

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark 'No error' as your answer (Ignore the errors of punctuation, if any).

Excuse(1)/ me(2)/ interrupting you.(3)/ no error(4)

Options :

1. 1

2. 2

3. 3

4. 4

5.

Answer : 3

• Question No. 9

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark 'No error' as your answer (Ignore the errors of punctuation, if any).

She was ill for five days (1)/when The doctor (2)/was sent for. (3)/No error(4)

Options :

1. 1

2. 2

3. 3

4. 4

5.

Answer : 1

• Question No. 10

Read each sentence to find out whether there is any grammatical error in it. The error, if any, will be in one part of the sentence. Mark the part with the error as your answer. If there is no error, mark 'No error' as your answer (Ignore the errors of punctuation, if any).

Newspapers have great power (1)/because their (2)/enormous circulation.(3)/ No error(4)

Options :

1. 1

2. 2

3. 3

4. 4

5.

Answer : 2

Read the given passage carefully and answer the following questions based on it.

Albert Einstein was born on March 14, 1879, in Ulm's city in the kingdom of Württemberg in the German Empire.

Albert was the first child to his parents, Hermann Einstein and Pauline Einstein. His father was a salesman and an engineer, and his mother was a quiet and caring woman. His parents lived in a world with no electric lights and used oil and gasoline lamps. They used coal to light fire. Their only means of transportation were horses.

Fortunately, when Albert Einstein was in the womb, the technology was developing, and by the time he was born, Thomas Edison invented the light bulb, which helped in his upbringing. When he was five years old and ill, his father gave him a compass, that compass sparked his interest in science. So, from an early age itself, Einstein had **acurious** mind about how the universe functions. He was able to reveal all the internal workings of the universe. Though he is known for his **genius** and sharp brain, in his early life, he started speaking comparatively late when he was 3.

His parents were **anxious** and consulted a doctor regarding this matter. They assumed that Einstein was having a developmental issue. The doctor clarified that his brain too big than a normal brain. Even though he formed full sentences in his mind, he couldn't speak a word. His first words as a child were, "Soup is too hot."

- Question No. 11

Where did the Albert Einstein born?

Options :

1. Germany
2. Russia
3. United Kingdom
4. Portugal
- 5.

Answer : Germany

• Question No. 38

Statements: P

Conclusions:

I. $K \geq O$

II. $N \leq L$

III. $O \geq N$

Options :

1. Only conclusion II is true.
2. Only conclusions I and III are true.
3. Only conclusion I is true.
4. Only conclusions II and III are true.
- 5.

Answer : Only conclusions II and III are true.

- Question No. 39

How many such pairs of digits are there in the number "257683914", each of which has as many digits between them in the number both forward and backward direction as they have between them in the number system?

Options :

1. Four
2. Three
3. Two
4. Five
- 5.

Answer : Five

- Question No. 40

Find the odd one out.

Options :

1. VYC
2. FIM

3. LOS

4. ORU

5.

Answer : ORU

Direction:

Answer the questions based on the information given below.

In a certain code of language,

'theatre Folk noted artist' is coded as 'ud vd za pw'

'selected actor football noted' is coded as 'nd lo tj vd'

'actor theatre musician selected' is coded as 'za sv lo nd'

'receive artist musician award' is coded as 'xc sv ud nf'

- Question No. 41

What is the code of 'theatre musician'?

Options :

1. ud sv

2. tj ud

3. za sv

4. vd ud

5.

Answer : za sv

Direction:

Answer the questions based on the information given below.

In a certain code of language,

'selected actor football noted' is coded as 'nd lo tj vd'

'actor theatre musician selected' is coded as 'za sv lo nd'

'receive artist musician award' is coded as 'xc sv ud nf'

• Question No. 43

'pw' is the code for which of the following word?

Options :

1. Folk
2. Musician

3. Artist
4. Actor
- 5.

Answer : Folk

Direction:

Answer the questions based on the information given below.

In a certain code of language,

'theatre Folk noted artist' is coded as 'ud vd za pw'

'selected actor football noted' is coded as 'nd lo tj vd'

'actor theatre musician selected' is coded as 'za sv lo nd'

'receive artist musician award' is coded as 'xc sv ud nf'

- Question No. 44

What is the code of 'Theatre'?

Options :

1. za
2. pw
3. xc
4. ud
- 5.

Answer : za

Direction:

Answer the questions based on the information given below.

In a certain code of language,

'theatre Folk noted artist' is coded as 'ud vd za pw'

'selected actor football noted' is coded as 'nd lo tj vd'

'actor theatre musician selected' is coded as 'za sv lo nd'

'receive artist musician award' is coded as 'xc sv ud nf'

• Question No. 45

What is the code of 'Actor'?

Options :

1. nd
2. lo
3. sv
4. Either nd or lo
- 5.

Answer : Either nd or lo

Direction:

Answer the questions based on the information given below.

Eight persons A, B, C, D, E, F, G and H live on different floors of 8-storey building. The bottommost floor is numbered as 1, floor above it as 2 and so on.

D lives two floors above B's floor and both live on even numbered floor. G lives just above D's floor. E lives three floors above A, who lives on prime numbered floor. F lives above C, who does not live on bottommost floor. F and C do not live on adjacent floors.

• Question No. 46

How many persons live above E's floor?

Options :

1. Two
2. One
3. Five
4. Three

5.

Answer : Three

Direction:

Answer the questions based on the information given below.

Eight persons A, B, C, D, E, F, G and H live on different floors of 8-storey building. The bottommost floor is numbered as 1, floor above it as 2 and so on.

D lives two floors above B's floor and both live on even numbered floor. G lives just above D's floor. E lives three floors above A, who lives on prime numbered floor. F lives above C, who does not live on bottommost floor. F and C do not live on adjacent floors.

- Question No. 47

Who lives just above H's floor?

Options :

1. C
2. A
3. G
4. D
- 5.

Answer : A

Direction:

Answer the questions based on the information given below.

Eight persons A, B, C, D, E, F, G and H live on different floors of 8-storey building. The bottommost floor is numbered as 1, floor above it as 2 and so on.

D lives two floors above B's floor and both live on even numbered floor. G lives just above D's floor. E lives three floors above A, who lives on prime numbered floor. F lives above C, who does not live on bottommost floor. F and C do not live on adjacent floors.

- Question No. 48

Who lives three floors below D's floor?

Options :

1. H
2. C
3. F
4. E
- 5.

Answer : C

Direction:

Answer the questions based on the information given below.

Eight persons A, B, C, D, E, F, G and H live on different floors of 8-storey building. The bottommost floor is numbered as 1, floor above it as 2 and so on.

D lives two floors above B's floor and both live on even numbered floor. G lives just above D's floor. E lives three floors above A, who lives on prime numbered floor. F lives above C, who does not live on bottommost floor. F and C do not live on adjacent floors.

- Question No. 49

Who lives on topmost floor?

Options :

1. F
2. G
3. B
4. C
- 5.

Answer : F

Direction:

Answer the questions based on the information given below.

Eight persons A, B, C, D, E, F, G and H live on different floors of 8-storey building. The bottommost floor is numbered as 1, floor above it as 2 and so on.

D lives two floors above B's floor and both live on even numbered floor. G lives just above D's floor. E lives three floors above A, who lives on prime numbered floor. F lives above C, who does not live on bottommost floor. F and C do not live on adjacent floors.

- Question No. 50

Who lives on bottommost floor?

Options :

1. E
2. A
3. C
4. H
- 5.

Answer : H

Direction:

Study the following data carefully and answer the questions given below:

The line graph shows the selling of two different types of books (Fiction + Comic) by 5 different shops A, B, C, D and E.

- Question No. 51

Find the difference between the total comic books sold to total fiction books sold from all the shops together.

Options :

1. 200
2. 150
3. 175
4. 100
- 5.

Answer : 175

Direction:

Study the following data carefully and answer the questions given below:

The line graph shows the selling of two different types of books (Fiction + Comic) by 5 different shops A, B, C, D and E.

- Question No. 52

Find the ratio between total books sold from shop C to that of shop B.

Options :

1. 3:4
2. 1:1
3. 4:3
4. 2:1
- 5.

Answer : 1:1

Direction:

Study the following data carefully and answer the questions given below:

The line graph shows the selling of two different types of books (Fiction + Comic) by 5 different shops A, B, C, D and E.

- Question No. 53

Number of comic books sold from shop E is what percent more than the number of comic books sold from shop A?

Options :

1. 40%
2. 33.33%
3. 27.5%
4. 37.5%
- 5.

Answer : 37.5%

Direction:

Study the following data carefully and answer the questions given below:

The line graph shows the selling of two different types of books (Fiction + Comic) by 5 different shops A, B, C, D and E.

- Question No. 54

Find the average of total number of fiction books sold from all the shops together.

Options :

1. 265
2. 275
3. 305
4. 315
- 5.

Answer : 265

Direction:

Study the following data carefully and answer the questions given below:

The line graph shows the selling of two different types of books (Fiction + Comic) by 5 different shops A, B, C, D and E.

• Question No. 55

Find the difference between numbers of fiction books sold from shop B to the number of comic books sold from shop D.

Options :

1. 150
2. 100
3. 125
4. 75
- 5.

Answer : 125

Direction:

In each of the following number series, a wrong number is given, find out that number.

• Question No. 56

56. 23 45 89 177 363 705

Options :

1. 177
2. 45
3. 89
4. 363
- 5.

Answer : 363

Direction:

In each of the following number series, a wrong number is given, find out that number.

- Question No. 57

100 221 77 245 50 275

Options :

1. 245
2. 275
3. 77
4. 100
- 5.

Answer : 245

Direction:

In each of the following number series, a wrong number is given, find out that number.

- Question No. 58

5 10 30 150 950 11550

Options :

1. 10
2. 11550
3. 950
4. 30

5.

Answer : 950

Direction:

In each of the following number series, a wrong number is given, find out that number.

- Question No. 59

217 267 304 330 348 357

Options :

1. 217

2. 267

3. 330

4. 348

5.

Answer : 348

Direction:

In each of the following number series, a wrong number is given, find out that number.

- Question No. 60

5 13 36 145 719 4321

Options :

1. 5

2. 36

3. 13

4. 145

5.

Answer : 36

- Question No. 61

A sum of money invested for 2 years at 20% compounded annually and similar money invested for 3 years on simple interest at 10% per annum. If the difference between interests is Rs. 280, then find the sum of money.

Options :

1. Rs. 2500
2. Rs. 3000
3. Rs. 4000
4. Rs. 2000
- 5.

Answer : Rs. 2000

- Question No. 62

55 litres of a solution contains alcohol and water in the ratio 2:3. Water is added in the solution. The new mixture has a ratio of alcohol and water as 1:5. Find the quantity of water added.

Options :

1. 87 litres
2. 77 litres
3. 97 litres
4. 67 litres
- 5.

Answer : 77 litres

- Question No. 63

A bag contains black and white balls, such that the probability of picking a black ball is $\frac{4}{7}$. If the probability of picking two black balls without replacing the first is $\frac{4}{13}$, how many black balls are there in the bag?

Options :

1. 8
2. 4
3. 5
4. 7
- 5.

Answer : 8

• Question No. 64

The ratio of ages of Aryan's grandfather and his father 14 years ago was 5 : 3. The present age of Aryan's grandfather is $\frac{7}{2}$ of Aryan's age. If the age of Aryan 8 years ago was 16 years, then find the sum of present ages of all three.

Options :

1. 158 years
2. 161 years
3. 164 years
4. 170 years
- 5.

Answer : 164 years

• Question No. 65

Length and breadth of a rectangular room are in the ratio 4 : 5. The perimeter of the room is 180 m. Cost of flooring is Rs. 75 per square metre. Find the cost of flooring the room.

Options :

1. Rs. 1,50,000
2. Rs. 1,20,000
3. Rs. 1,75,000
4. Rs. 1,68,000
- 5.

Answer : Rs. 1,50,000

- Question No. 66

Vaibhav brought a pen for Rs.2000. He sold it to Ravi at a loss of 20%. Ravi had to earn some profit, so he sold it to Vikas at 10% profit. If Vikas has to earn a profit of 10% from selling it, at what price (in Rs.) should he sell the pen?

Options :

1. 1975
2. 1936
3. 1950
4. 1924
- 5.

Answer : 1936

- Question No. 67

A can finish a job in 20 days while B can finish same job in 30 days. A and B both worked for 5 days and C joins them. In next 3.5 days, all three have managed to complete the job. Find in how many days C alone can finish the job.

Options :

1. 9 days
2. 3 days
3. 12 days
4. 24 days
- 5.

Answer : 12 days

Direction:

Study the following information carefully and answer the related questions.

Number of students participated in dance from three different schools. Number of girls participated from school B and number of boys participated from school C are equal. Respective ratio of number of boys and girls participated from school A is 2:3 and number of girls participated from school A are 18 more than the number of girls

participated from school C. Sum of number of participants from school B and C is 490 and 180 students participated from school A. 100 boys participated from school B.

• Question No. 68

What is the ratio of the number of boys participated from school A to the number of girls participated from school C?

Options :

1. 4:7
2. 3:2
3. 4:5
4. 5:6
- 5.

Answer : 4:5
