Each of the five items given below has a phrase given in italics. Choose the one from among the options (a), (b), (c) and (d) that best describes the phrase and mark your response in the Answer Sheet accordingly.

• Question No. 4

She was criticized for her views that were often restricted to small local issues and ignored matters of national importance.

Options :

1. unilateral
2. illiberal
3. parochial
4. limited
- 5.

Answer : parochial

Direction:

Each of the five items given below has a phrase given in italics. Choose the one from among the options (a), (b), (c) and (d) that best describes the phrase and mark your response in the Answer Sheet accordingly.

• Question No. 5

When profits began dropping steeply all of a sudden he realized that he ought to wind up his business soon.

Options :

1. precipitously
2. instantaneously
3. cataclysmically
4. dramatically
- 5.

Answer : cataclysmically

Direction:

Read the following passage carefully and answer the five questions that follow by selecting your answers based solely on the content of the passage and the opinion of the author only.

The millet project of the MS Swaminathan Research Foundation had three objectives-to preserve crop diversity in focal millet varieties, to increase production and the consumption of millets, and to enhance farm incomes. The Kolli Hills block of Namakkal district, the project area, is a distinct geographic and agroecological region of the Eastern Ghats, populated by income-poor Scheduled Tribe households.

There had been a rapid decline in minor millet cultivation, and a shift in land use towards more profitable crops such as cassava (tapioca), pineapple, coffee, and pepper. As the Indian Council of Agricultural Research (ICAR) has pointed out, the area under nutri-cereals has declined steeply in India since the mid-1980s-from 41 million hectares in the 1980s to 24 million hectares in 2017-18.

The reasons for a shift in land use include low yields. Further, processing of millets is a time-consuming and laborious task, undertaken by women. Additionally very little was marketed, and a tiny share of grain was processed into value-added products.

The project intervened in three areas. First, yield enhancement was attempted, using a combination of participatory varietal trials for improved seeds, new agronomic practices, and new technology. Community seed banks were designed and constructed to conserve, restore, revive, strengthen and improve local seed systems.

Second, customized post-harvest machineries (pulverizers and dehullers) were introduced. The introduction of small-scale localized mechanical milling, operated by self-help groups, was a game-changer.

The third major initiative was training. The Kolli Hills Agrobiodiversity Conservers' Federation (KHABCOFED) was formed to oversee all activities relating to training and value-addition. Ready-to-cook products were branded under the Kolli Hills Natural Foods label and market links established. Net returns from value-added products were five to ten times higher than those from grains.

Yields have risen as a result of improved seeds, agronomic practices and intercropping) There have been significant improvements in incomes from millet farming. The shift from hand-pounding to milling has reduced the drudgery for women and encouraged millet consumption. The number of private mills with customized dehullers and pulverizers has risen (and the technology has been marketed to Krishi Vigyan Kendras across Tamil Nadu).

• Question No. 6

What does "agroecological region of the Eastern Ghats" mean in the passage?

Options :

1. Area marked by excessive agricultural yield
2. Area suitable for developing tourism
3. Area with pollution-free characteristics
4. Area meant for sustainable farming that works in tandem with nature
- 5.

Answer : Area meant for sustainable farming that works in tandem with nature

The number of private mills with customized dehullers and pulverizers has risen (and the technology has been marketed to Krishi Vigyan Kendras across Tamil Nadu).

• Question No.7

There has been a rapid decline in minor millet cultivation because

Options :

1. the millet crop requires special manures to grow
2. the land of Namakkal district is not suitable for growing millet
3. there has been shift towards growing more profitable crops
4. the land is declared as not climate-resilient for the production of millet
- 5.

Answer : there has been shift towards growing more profitable crops

The shift from hand-pounding to milling has reduced the drudgery for women and encouraged millet consumption. The number of private mills with customized dehullers and pulverizers has risen (and the technology has been marketed to Krishi Vigyan Kendras across Tamil Nadu).

• Question No. 9

"The introduction of small-scale localized mechanical milling, operated by self- help groups, was a game-changer." What does it mean in the passage?

Options :

1. Machinery for processing millets is not advanced enough.
2. Self-help groups are active in improving machinery for various crops.
3. The use of improvised local machines for removing husk from millets has been a turning point for millet farming.
4. The process of milling the millets is at a small scale.
- 5.

Answer : The use of improvised local machines for removing husk from millets has been a turning point for millet farming.

The principle of subrogation in insurance allows

Options :

1. investment of policy amount
2. refund for insured and insured's insurance company
3. auto-renewal of policy
4. indemnification of the insured
- 5.

Answer : indemnification of the insured

- Question No. 32

Which of the following expenditures are charged to the Consolidated Fund of India?

1. The debt charges for which the Government of India is liable
2. The emoluments and allowances of the President and other expenditure relating to his/her office

3. The salaries, allowances and pensions payable to or in respect of Judges of the Supreme Court
4. The salaries and allowances of the Chairman and the Deputy Chairman of the Rajya Sabha, and the Speaker and the Deputy Speaker of the Lok Sabha.

Select the correct answer using the code given below.

Options :

1. 1 and 2 only
2. 1, 2, 3 and 4
3. 2, 3 and 4 only
4. 3 and 4 only
- 5.

Answer : 1, 2, 3 and 4

- Question No. 33

Consider the following statements:

1. Population change in an area is an important indicator of economic development of that region.
2. Population change in an area is not an indicator of social upliftment of that region.

Which of the above statements is/are correct?

Options :

1. 1 only
2. 2 only
3. Both 1 and 2
4. Neither 1 nor 2
- 5.

Answer : Neither 1 nor 2

- Question No. 34

Which one among the following statements regarding 'human development' is not correct?

Options :

1. The basic concept of Income Approach to Human Development is that the level of income reflects the level of freedom an individual enjoys.
2. Basic Needs Approach to Human Development was initially proposed by the International Labour Organization (ILO).
3. Human Poverty Index measures the shortfall in human development.
4. Under the Welfare Approach to Human Development, the Government protects and promotes private entrepreneurs to maximize expenditure on welfare.
- 5.

Answer : Under the Welfare Approach to Human Development, the Government protects and promotes private entrepreneurs to maximize expenditure on welfare.

• Question No. 35

Which of the following statements about globalization is/are correct?

1. It has fuelled the spread of trans- border currencies, digital cash and global credit cards.
2. Securities markets have gained a global dimension with the development of electronic round- the-world trading.

Select the correct answer using the code given below.

Options :

1. 1 only
2. 2 only
3. Both 1 and 2
4. Neither 1 nor 2
- 5.

Answer : Both 1 and 2

• Question No. 36

As per FAOSTAT (Food and Agriculture Organization Corporate Statistical Database), which of the following is/are correct about India's milk production?

1. India ranked second in the world in milk production in the year 2021-22.
2. India contributed 24% of global milk production in the year 2021-22.

Select the correct answer using the code given below.

Options :

1. 1 only
2. 2 only
3. Both 1 and 2
4. Neither 1 nor 2
- 5.

Answer : 2 only

- Question No. 37

Which one of the following statements about the Group of Twenty (G20) is not correct?

Options :

1. It was founded in 1999.
2. The G20 summit is held annually under the leadership of a rotating Presidency.
3. The G20 members represent around 85% of the global GDP.
4. The G20 comprises twenty countries
- 5.

Answer : The G20 comprises twenty countries

- Question No. 38

The Nobel Prize in Chemistry for the year 2022 was awarded for

Options :

1. CRISPR/Cas9 genetic scissors
2. click chemistry and biorthogonal chemistry
3. lithium-ion batteries
4. palaeogenomics
- 5.

Answer : click chemistry and biorthogonal chemistry

• Question No. 39

Which of the following statements about a 'unicorn' is/are correct?

1. In the venture capital industry, the term 'unicorn' refers to any startup that reaches the valuation of \$10 billion.
2. Only a privately held startup can be a unicorn.

Select the correct answer using the code given below.

Options :

1. 1 only

4. Amount spent on repairing a secondhand machine before put to use
- 5.

Answer : ₹5,000 spent to remove a worn- out part. This part needs to be replaced with a new engine

• Question No. 42

Which one of the following is not a correct IP address?

Options :

1. 201.54.122.107
2. 102.45.221.710
3. 102.45.201.22
4. 250.234.123.124
- 5.

Answer : 102.45.221.710

- Question No. 43

In mesh topology, if we have six- computers, how many links must be there?

Options :

1. 6
2. 13
3. 12
4. 15
- 5.

Answer : 15

- Question No. 44

The binary equivalent of the octal number 473 is

Options :

1. 100111011
2. 100111111
3. 110111011
4. 110001011
- 5.

Answer : 100111011

- Question No. 45

Which one among the following commands is used to check the error status of hard disk drive?

Options :

1. CHKDK
2. CHECKDISK
3. CHKDSK

4. DSKCHK

5.

Answer : CHECKDISK

- Question No. 46

Which one of the following registers contains the address of the next location in the memory to be accessed?

Options :

1. IR

2. MAR

3. MBR

4. DR

5.

Answer : MAR

- Question No. 47

The effluents of which among the following industries are considered to be the main cause for lowering the pH value of river water?

Options :

1. Alcohol distillery industries

2. Plastic cup manufacturing industries

3. Soap and detergent industries

4. Lead battery manufacturing industries

5.

Answer : Alcohol distillery industries

- Question No. 48

Which one of the following is not a soap?

Options :

1. Sodium stearate
2. Sodium palmate
3. Sodium benzoate
4. Sodium oleate
- 5.

Answer : Sodium benzoate

- Question No. 49

The human eyeball is composed of three layers. The correct sequence of the layers from exterior to interior is

Options :

1. Sclera □ Choroid □ Retina
2. Cornea □ Choroid □ Retina
3. Cornea □ Sclera □ Choroid
4. Sclera □ Cornea □ Choroid
- 5.

Answer : Sclera □ Choroid □ Retina

- Question No. 50

Consider the following reaction:

Which one of the following statements about the reaction given above is correct?

Options :

1. The oxidation state of hydrogen increases while that of oxygen decreases.
2. The oxidation state of hydrogen decreases while that of oxygen increases.
3. There is no change in the oxidation state of hydrogen as well as that of oxygen.

4. During the reaction, hydrogen is reduced while oxygen is oxidized.

5.

Answer : The oxidation state of hydrogen increases while that of oxygen decreases.

• Question No. 51

The pillar-like structures which hang vertically downward from the aerial branches found in banyan tree are known as

Options :

1. tap roots
2. climbing roots
3. fibrous roots
4. prop roots
- 5.

Answer : prop roots

• Question No. 52

Which of the following was/were recommended by the Thurgon Committee in respect of 'local governments' in India?

1. Constitutional status
2. Three-year term

Select the correct answer using the code given below.

Options :

1. 1 only
2. 2 only
3. Both 1 and 2
4. Neither 1 nor 2

5.

Answer : 1 only

• Question No. 53

'eSanjeevani', scheme of the Government of India, serves which one among the following objectives?

Options :

1. Creates a database of people affected by COVID-19
2. Promotes the use of telemedicine

3. Wrong balancing of machinery account
4. Cash sales not recorded in cash book
- 5.

Answer : Cash sales not recorded in cash book

- Question No. 66

Which of the following operators connects a structure variable and its element?

Options :

1. Dot operator
2. Plus operator
3. Minus operator

4. Multiply operator

5.

Answer : Dot operator

- Question No. 67

Which of the following is not a top-down language?

Options :

1. C

2. FORTRAN

3. JAVA

4. Pascal

5.

Answer : JAVA

- Question No. 68

Which one of the following attributes is required for internal linking in HTML?

Options :

1. Name

2. Align

3. Body

4. Link

5.

Answer : Name

- Question No. 69

Which one of the following types of operating systems is designed to respond to an predetermined time?

Options :

1. Embedded
2. Real time
3. Multiuser
4. Synchronized
- 5.

Answer : Real time

• Question No. 70

What is the decimal equivalent of the hexadecimal number 5A6D?

Options :

1. 23149
2. 23148
3. 23147
4. 13149
- 5.

Answer : 23149

• Question No. 71

Two lenses of powers +2.0 D and -2.5 D are combined to make an optical instrument. The combination will

Options :

1. act as a convex lens
2. act as a concave lens
3. act as a simple mirror
4. not form any image
- 5.

Answer : act as a concave lens

• Question No. 72

For an inelastic collision between two objects, which one among the following statements is correct?

Options :

1. The kinetic energy remains conserved, but not the momentum.
2. The momentum remains conserved, but not the kinetic energy.
3. Both the kinetic energy and the momentum remain conserved.
4. Neither the kinetic energy nor the momentum remains conserved.
- 5.

Answer : The momentum remains conserved, but not the kinetic energy.

• Question No. 73

A train starting from rest with a uniform acceleration attains a speed of 108 km/h in 5 minutes. The distance covered by the train in attaining the speed is

Options :

1. 9000 m
2. 4500 m
3. 355 m
4. 108 m
- 5.

Answer : 9000 m

• Question No. 74

An object is placed in front of a concave mirror at infinity. Which one of the following is correct for its image?

Options :

1. A real and inverted image would be formed at the focal point.
2. A virtual and inverted image would be formed at the focal point.

3. A real and erect image would be formed at infinity.
4. A virtual and erect image would be formed at the focal point.
- 5.

Answer : A real and inverted image would be formed at the focal point.

• Question No. 75

The main cause of ocean acidification is

Options :

1. carbon dioxide
2. carbon monoxide
3. hydrogen sulfide
4. chlorofluorocarbon
- 5.

Answer : carbon dioxide

• Question No. 76

- 5.

Answer : The Freedom of Association and Protection of the Right to Organize Convention (No. 87)

- Question No. 93

Suppose there are five trade unions, namely A, B, C, D and E functioning in an establishment currently employing 1100 workmen. The membership strength of each union is as follows:

Union A	:	100
Union B	:	370
Union C	:	110
Union D	:	275
Union E	:	80

Based on the strength of membership, which of the above unions can be registered under the Trade Unions act, 1926?

Options :

1. All the unions
2. Unions A, B, C and D only
3. Unions B, C and D only
4. Unions B and D only

5.

Answer : Unions A, B, C and D only

• Question No. 94

Registration of trade unions of workers under the Trade Unions Act, 1926 is

Options :

1. optional
2. compulsory
3. optional for workers working in non-public utility services
4. compulsory for workers working in public utility services
- 5.

Answer : optional

• Question No. 95

The Right of workers to resort to strike is the

Options :

1. Fundamental Right
2. Statutory Right
3. Common Law Right
4. Equitable Right
- 5.

Answer : Statutory Right

• Question No. 96

PQ and RS are chords on a circle centred at O. Suppose A is the point of intersection of PQ and RS. Which of the following statements is/are correct?

1. If A and O coincide, then the four parts of the circle produced by the chords shall always have equal areas.
2. If A and O do not coincide, then two of the four parts of the circle produced by the chords shall always have equal areas.

Select the correct answer using the code given below.

Options :

1. 1 only
2. 2 only
3. Both 1 and 2
4. Neither 1 nor 2
- 5.

Answer : Neither 1 nor 2

• Question No. 97

P, Q, R, Sand T are five friends. The mean of weights of P, Q, R and S is 50 kg. whereas the mean of weights of Q, R, S and T is also 50 kg. Which of the following statements is/are correct?

1. The weight of 7 is 50 kg.
2. The weights of P and T are equal.

Select the correct answer using the code given below.

Options :

1. 1 only
2. 2 only
3. Both 1 and 2
4. Neither 1 nor 2
- 5.

Answer : 2 only

- Question No. 98

P, Q, R, S, T, U, V and W are sitting in a row facing North. P and S are neighbours; W is a neighbour of both Q and U; T is a neighbour of R and V. If there are four people between P and V, how many people are there between P and R?

Options :

1. 1
2. 3
3. 5
4. 6
- 5.

Answer : 6

- Question No. 99

The angles of elevation of the top of a tower from the top and bottom of a 10 metres tall building are 30° and 45° respectively. Approximately what is the height of the tower in metres from the top of the building (given that $\sqrt{3} = 1.73$)?

Options :

1. 10.65
2. 13.41
3. 13.65
4. 15.41
- 5.

Answer : 13.65

- Question No. 100

A multiple-choice question paper has 50 questions. Each question has got four options, namely A, B, C and D. Each correct answer carries 4 marks and each wrong answer carries -1 mark. A candidate decides to tick in the pattern

A, B, C, D, A, B, C, D, A, B, C, D,

and so on starting from Question No. 1, till the end. If option (C) is the correct answer in each question, then what is the total score of the candidate?

Options :

1. 6
2. 8
3. 10
4. 12
- 5.

Answer : 10

• Question No. 101

- 5.

Answer : three years

- Question No. 112

There are seven hemispherical containers of radius R metres each and each of them is fully filled with water. The water in these is transferred to a hemispherical container of radius equal to 1.5 times of R such that a maximum number of smaller containers get emptied out. How many smaller containers remain fully filled when the larger container gets fully filled?

Options :

1. 5
2. 3
3. 4
4. 2
- 5.

Answer : 4

- Question No. 113

What is the length of the radius of the circle that passes through the points $(0, 0)$, $(0, 3)$ and $(2, 0)$?

Options :

1. $2\sqrt{3}$
2. $2\sqrt{5}$
3. $(\sqrt{11})/2$
4. $(\sqrt{13})/2$
- 5.

Answer : $(\sqrt{13})/2$

• Question No. 114

Suppose that x and y are distinct variables that take values from $(1, 2, 3, 4, 5, 6)$. What is the probability that the value of the expression $xy+x+y$ is even?

Options :

1. $1/2$
2. $1/3$
3. $1/4$
4. $1/5$
- 5.

Answer : $1/5$

• Question No. 115

Suppose that $a, b > 0$. If the equation $x^2 + ax + b = 0$ has real roots, namely α and β , then which one of the following is correct?

Options :

1. $\alpha > 0$
2. If $a > 0$, then $\alpha < 0$
3. $\alpha < 0$
4. $-1 < \alpha/\beta < 1$

5.

Answer : 0

• Question No. 116

The ages of Mr. Kumar and his son are in the ratio 5:3. Fifteen years back this ratio was 2 :1. What was the age (in years) of Mr. Kumar when his son was born?

Options :

1. 30
2. 35
3. 40
4. 45
- 5.

Answer : 30

• Question No. 117

In a business firm, assets of the business are valued on the basis of their intrinsic value rather than realizable value. This accounting is based on

Options :

1. money measurement concept
2. matching concept
3. going concern assumption
