

Direction:

**Answer the questions based on the information given below.**

A certain number of persons are sitting in a straight row facing north. Seven persons sits between F and C, who sits fifth to the left of E. Three persons sit between E and D, who sits left of E. A sits sixth to the left of D. More than two persons are sitting between A and F. A sits fourth from the extreme left end of row. E sits seventh to the left of G. Number of persons sitting between G and F is same as number of persons sitting between A and B. No one sits to the right of G.

• Question No. 1

Which of the following statements is/are not correct?

Options :

1. One person sits between D and B
2. Three persons sit between A and B
3. Five persons sits between B and E
4. Three persons sits between F and E
5. All are correct

Answer : Three persons sits between F and E

Direction:

**Answer the questions based on the information given below.**

A certain number of persons are sitting in a straight row facing north. Seven persons sits between F and C, who sits fifth to the left of E. Three persons sit between E and D, who sits left of E. A sits sixth to the left of D. More than two persons are sitting between A and F. A sits fourth from the extreme left end of row. E sits seventh to the left of G. Number of persons sitting between G and F is same as number of persons sitting between A and B. No one sits to the right of G.

• Question No. 2

How many persons are sitting in the row?

**Options :**

1. 20
2. 19
3. 22
4. 23
5. 21

Answer : 21

Direction:

**Answer the questions based on the information given below.**

A certain number of persons are sitting in a straight row facing north. Seven persons sits between F and C, who sits fifth to the left of E. Three persons sit between E and D, who sits left of E. A sits sixth to the left of D. More than two persons are sitting between A and F. A sits fourth from the extreme left end of row. E sits seventh to the left of G. Number of persons sitting between G and F is same as number of persons sitting between A and B. No one sits to the right of G.

- Question No. 3

How many persons sit between G and D?

**Options :**

1. Twelve
2. Ten
3. Nine
4. Eleven
5. None of the above

Answer : Ten

Direction:

**In each of the questions below is given some statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.**

- Question No. 4

**Statements:**

At least some books are chapter.

All chapter are Paper.

Only a few paper are pages.

**Conclusions:**

I. No chapter are pages.

II. Some chapter are pages.

**Options :**

1. if only conclusion I follows
2. if only conclusion II follows
3. If either conclusion I or II follows.
4. If neither conclusion I nor II follows
5. if both conclusions I and II follow

Answer : If either conclusion I or II follows.

Direction:

**In each of the questions below is given some statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.**

- Question No. 5

**Statements:**

All Asia are Africa

Only a few Africa are Atlanta

No Atlanta is World

**Conclusions:**

I. No Atlanta are Asia

II. Some Atlanta are Asia

**Options :**

1. if only conclusion I follows
2. if only conclusion II follows
3. If either conclusion I or II follows.
4. If neither conclusion I nor II follows
5. if both conclusions I and II follow

Answer : If either conclusion I or II follows.

Direction:

**In each of the questions below is given some statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.**

- Question No. 6

**Statements:**

— Only a few coconut are tree

All tree are ball

No ball are mushroom

**Conclusions:**

I. All coconut being tree is a possibility.

II. No tree is mushroom

**Options :**

1. if only conclusion I follows
2. if only conclusion II follows
3. If either conclusion I or II follows.
4. If neither conclusion I nor II follows

5. if both conclusions I and II follow

Answer : if only conclusion II follows

Direction:

Study the following digit-letter-symbol sequence carefully and answer the questions given below:

5 D ) Y F 7 \$ L 2 ! D C - M # 8 G H % B = J Z J P 5 E 6 + R

• Question No. 7

How many such symbols are there in the above sequence, each of which is immediately followed by a perfect cube of a number?

Options :

1. Two
2. One
3. Four
4. None
5. None of these

Answer : One

Direction:

Study the following digit-letter-symbol sequence carefully and answer the questions given below:

5 D ) Y F 7 \$ L 2 ! D C - M # 8 G H % B = J Z J P 5 E 6 + R

• Question No. 8

Which of the following element is fourth to the left of seventeenth element from the right?

Options :

1. J
2. >
3. 1

4. =

5. None of these

Answer : J

Direction:

Study the following digit-letter-symbol sequence carefully and answer the questions given below:

5 D ) Y F 7 \$ L 2 ! D C – M # 8 G H % B = J Z J P 5 E 6 + R

• Question No. 9

If all the alphabets are dropped in the given series, then which element will be at fourteenth position from right end?

Options :

1. 8

2. -

3. !

4. 2

5. None of these

Answer : -

Direction:

Study the following digit-letter-symbol sequence carefully and answer the questions given below:

5 D ) Y F 7 \$ L 2 ! D C – M # 8 G H % B = J Z J P 5 E 6 + R

• Question No. 10

If the first 20 elements in the above sequence are written in reverse order, then which of the following element will be twenty-sixth from the right end?

Options :

1. !

2. B

3. Y

4. =

5. None of these

Answer : Y

Direction:

Study the following digit-letter-symbol sequence carefully and answer the questions given below:

5 D ) Y F 7 \$ L 2 ! D C – M # 8 G H % B = J Z J P 5 E 6 + R

- Question No. 11

How many such numbers are there in the above sequence, each of which is immediately followed by a letter and immediately preceded by a symbol?

Options :

1. Four
2. Two
3. None of these
4. None
5. One

Answer : One

Direction:

Study the following information to answer the given questions:-

In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer

- Question No. 12

**Statements:**  $G \leq F = L \leq J, J \leq K = H$

**Conclusions:**

- I.  $K = G$
- II.  $G$

Options :

1. if only conclusion I follows
2. if only conclusion II follows
3. if either conclusion I or conclusion II follows
4. if neither conclusion I nor conclusion II follows
5. if both conclusions I and II follow

Answer : if either conclusion I or conclusion II follows

Direction:

**Study the following information to answer the given questions:-**

**In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer**

- Question No. 13

Statements: P W

Conclusions:

I.  $T > W$

II.  $P = Q$

Options :

1. if only conclusion I follows
2. if only conclusion II follows
3. if either conclusion I or conclusion II follows
4. if neither conclusion I nor conclusion II follows
5. if both conclusions I and II follow

Answer : if only conclusion I follows

Direction:

**Study the following information to answer the given questions:-**

**In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer**

- Question No. 14

**Statements:**  $T > U \geq V \geq W, X$

**Conclusions:**

I.  $V > X$

II.  $W$

**Options :**

1. if only conclusion I follows
2. if only conclusion II follows
3. if either conclusion I or conclusion II follows
4. if neither conclusion I nor conclusion II follows
5. if both conclusions I and II follow

Answer : if neither conclusion I nor conclusion II follows

Direction:

**Study the following information to answer the given questions:-**

Eight members A, B, C, D, E, F, H and K of a family consists of three generations. The spouse of F is not the brother of D, who is son of B. F and D are not married to each other. H is the only grandson of A, and both A and H don't have any sibling. Only a married couple can have a child and every married couple has a child. E and A doesn't belong to same generation. C, who is married, is not the mother of K. A is married to B, who is father in law of F. E, has a nephew, who is not the son of K. E and K are not in the same generation. D and E are not married to each other. K is not the sibling of B.

- Question No. 15

How is K related to C?

**Options :**

1. Daughter
2. Son
3. Niece
4. Nephew

5. Grandson

Answer : Niece

Direction:

**Study the following information to answer the given questions:-**

Eight members A, B, C, D, E, F, H and K of a family consists of three generations. The spouse of F is not the brother of D, who is son of B. F and D are not married to each other. H is the only grandson of A, and both A and H don't have any sibling. Only a married couple can have a child and every married couple has a child. E and A doesn't belong to same generation. C, who is married, is not the mother of K. A is married to B, who is father in law of F. E, has a nephew, who is not the son of K. E and K are not in the same generation. D and E are not married to each other. K is not the sibling of B.

- Question No. 16

What is the relationship between C and A?

**Options :**

1. C is the granddaughter of A.
2. C is the daughter in law of A.
3. A is the father in law of C.
4. C is the daughter of A.
5. A is the uncle of C.

Answer : C is the daughter in law of A.

Direction:

**Study the following information to answer the given questions:-**

Eight members A, B, C, D, E, F, H and K of a family consists of three generations. The spouse of F is not the brother of D, who is son of B. F and D are not married to each other. H is the only grandson of A, and both A and H don't have any sibling. Only a married couple can have a child and every married couple has a child. E and A doesn't belong to same generation. **Study the following information carefully and answer the questions below:**

Mr. William goes 17km in east reached point Y, then he takes a right turn and goes 52km to reach point Z. Then he takes a left turn and goes 7km reached point R. Again he takes a left turn and goes 24km and reached point S.

• Question No. 18

In which direction is he from the starting point?

**Options :**

1. South west
2. East
3. South east
4. North west
5. North east

Answer : South east

Direction:

Study the following information carefully and answer the question given below:

- Question No. 19

Who among the following is facing N?

**Options :**

1. V
2. S
3. U
4. W
5. None of these

Answer : V

Direction:

Study the following information carefully and answer the question given below:

- Question No. 20

Four of the following five are alike in a certain way based on the given arrangement and hence form a group. Who among the following does not belong to that group?

**Options :**

1. OL
2. KM
3. NM
4. SV
5. None of these

Answer : NM

Direction:

Study the following information carefully and answer the question given below:

- Question No. 21

What is the position of V with respect to T?

**Options :**

1. Third to the right
2. Immediate left
3. Second to the left
4. Second to the right
5. None of these

Answer : Third to the right

Direction:

Study the following information carefully and answer the question given below:

- Question No. 22

Which of the following is true regarding O?

**Options :**

1. O sits at extreme end of the row – I.
2. O faces one of the immediate neighbours of S.
3. Only two persons sit between O and N.
4. M sits on the immediate right of O.
5. None of these

Answer : Only two persons sit between O and N.

Direction:

Study the following information carefully and answer the question given below:

- Question No. 23

Who among the following is facing U?

**Options :**

1. O
2. N
3. M
4. K
5. None of these

Answer : M

• Question No. 24

How many such pairs of letters are there in the word 'DRAWING' each of which has as many letters between them in the word (in both backward and forward direction) as they have between them in the English alphabetical series?

Options :

1. None
2. One
3. Two
4. Three
5. More than three

Answer : Two

Direction:

**Study the following information carefully and answer the questions given below.**

Seven persons live in a seven-storey building. The ground floor is numbered as 1 and the topmost floor is numbered as 7.

Four persons live between A and B, who lives below A's floor. Two persons live between C and B. G lives immediately above D's floor. More than three persons live between E and F. E lives below D's floor.

• Question No. 25

Who live at the bottom?

**Options :**

1. E
2. A
3. B
4. C
5. Can't be determined

Answer : E

Direction:

**Study the following information carefully and answer the questions given below.**

Seven persons live in a seven-storey building. The ground floor is numbered as 1 and the topmost floor is numbered as 7.

Four persons live between A and B, who lives below A's floor. Two persons live between C and B. G lives immediately above D's floor. More than three persons live between E and F. E lives below D's floor.

- Question No. 26

How many persons live between A and F?

**Options :**

1. 1
2. 2
3. 3
4. None
5. Can't be determined

Answer : None

Direction:

**Study the following information carefully and answer the questions given below.**

Seven persons live in a seven-storey building. The ground floor is numbered as 1 and the topmost floor is numbered as 7.

Four persons live between A and B, who lives below A's floor. Two persons live between C and B. G lives immediately above D's floor. More than three persons live between E and F. E lives below D's floor.

- Question No. 27

Who lives at 5<sup>th</sup> floor?

**Options :**

1. E
2. A
3. B
4. C
5. Can't be determined

Answer : C

Direction:

**Study the following information carefully and answer the questions given below.**

Seven persons live in a seven-storey building. The ground floor is numbered as 1 and the topmost floor is numbered as 7.

Four persons live between A and B, who lives below A's floor. Two persons live between C and B. G lives immediately above D's floor. More than three persons live between E and F. E lives below D's floor.

- Question No. 28

G lives on which floor?

**Options :**

1. 3rd
2. 4th
3. 7th
4. 5th
5. Can't be determined

Answer : 4th

Direction:

**Study the following information carefully and answer the questions given below.**

Seven persons live in a seven-storey building. The ground floor is numbered as 1 and the topmost floor is numbered as 7.

Four persons live between A and B, who lives below A's floor. Two persons live between C and B. G lives immediately above D's floor. More than three persons live between E and F. E lives below D's floor.

• Question No. 29

Four of the given options are alike in a way. Choose the odd one.

Options :

1. E
2. D
3. F
4. C
5. A

Answer : F

• Question No. 30

If the digits in the number 40723819 are arranged in descending order from left to right, what will be the resultant if the third digit from your left is multiplied by the second digit from your right in the new arrangement?

Options :

1. 8
2. 6
3. 7
4. 9
5. None of these

Answer : 7

- Question No. 31

**Read the directions carefully and answer the following question.**

If it is possible to make to make only one meaningful word with the the third, fourth, seventh and eighth letters of the word '**CONSISTENCY**', which of the following will be third letter of the word? If no such word can be made, give 'X' as the answer and if more than one such words can be made give 'Z' as the answer.

**Options :**

1. N
2. S
3. T
4. X
5. Z

Answer : Z

Direction:

Study the following information and answer the following questions:

There are 7 Persons like A, B, C, D, E, F and G which are sitting around a circle and facing to the center.

B is third to the right of G and second to the left of C. A is third to the left of E who is not an immediate neighbour of G. D is third to the right of F, who is not an immediate neighbours of E.

- Question No. 32

What is the position of B with respect to F, when counted from left of F?

**Options :**

1. Second to the right
2. Second to the left
3. Immediate right
4. Third to the left.

5. None of these

Answer : Third to the left.

Direction:

Study the following information and answer the following questions:

There are 7 Persons like A, B, C, D, E, F and G which are sitting around a circle and facing to the center.

B is third to the right of G and second to the left of C. A is third to the left of E who is not an immediate neighbour of G. D is third to the right of F, who is not an immediate neighbours of E.

• Question No. 33

How many persons sits between C and D, when counted from right of D?

Options :

1. One
2. Two
3. Three
4. More than three
5. None of these

Answer : Two

Direction:

Study the following information and answer the following questions:

There are 7 Persons like A, B, C, D, E, F and G which are sitting around a circle and facing to the center.

B is third to the right of G and second to the left of C. A is third to the left of E who is not an immediate neighbour of G. D is third to the right of F, who is not an immediate neighbours of E.

• Question No. 34

Who among the following sits exactly between F and A?

**Options :**

1. C
2. E
3. D
4. G
5. None of these

Answer : G

Direction:

Study the following information and answer the following questions:

There are 7 Persons like A, B, C, D, E, F and G which are sitting around a circle and facing to the center.

B is third to the right of G and second to the left of C. A is third to the left of E who is not an immediate neighbour of G. D is third to the right of F, who is not an immediate neighbour of E.

- Question No. 35

If G is related to D, in the same way E is related to F, then with whom is C related to?

**Options :**

1. B
2. A
3. E
4. G
5. None of these

Answer : G

Direction:

**Simplify the following questions:**

- Question No. 36

$$(4.25 \times 8 \times 12) \div 8 - 2 = ?^2$$

**Options :**

- 1. 4
- 2. 5
- 3. 7
- 4. 8
- 5. 6

Answer : 7

Direction:

**Simplify the following questions:**

- Question No. 37

$$[(192)^2 \div 64 \times 24] \div 48 = \sqrt{?}$$

**Options :**

- 1. 82944
- 2. 77841
- 3. 88209
- 4. 72900
- 5. 104976

Answer : 82944

Direction:

**Simplify the following questions:**

- Question No. 38

$$\frac{4^3 \times 14 + 4060}{12} = \frac{7021}{?}$$

**Options :**

- 1. 17
- 2. 15

3. 9

4. 5

5. 6

Answer : 17

Direction:

**What should come in place of the question mark (?) in the following question?**

- Question No. 39

$$96 \div 2 \div ? = 3$$

**Options :**

1. 4

2. 9

3. 16

4. 8

5. None of these

Answer : 16

Direction:

**Simplify the following questions:**

- Question No. 40

$$261 \div 14.5 \times 5.5 + 46 \times 1.5 = ?$$

**Options :**

1. 141

2. 273

3. 168

4. 287

5. 240

Answer : 168

Direction:

**What should come in place of the question mark (?) in the following question?**

- Question No. 41

$$960 \div 30 \times 22 + 194 - 145 = ?$$

**Options :**

1. 283
2. 234
3. 146
4. 753
5. None of these

Answer : 753

Direction:

**What should come in place of the question mark (?) in the following question?**

- Question No. 42

$$\sqrt{1089} \div 3 \times 11 = ?$$

**Options :**

1. 252
2. 247
3. 121
4. 276
5. None of these

Answer : 121

Direction:

**What value should come in place of (?).**

- Question No. 43

$$42.8 \times 11.5 \times 14.2 \times ? = 3494.62$$

**Options :**

1. 0.25
2. 0.2
3. 3
4. 0.5
5. 0.12

Answer : 0.5

Direction:

**Simplify the following questions:**

- Question No. 44

$$(243)^2 \div (27)^2 \times 32 \div 12 = ?$$

**Options :**

1. 216
2. 243
3. 245
4. 48
5. 75

Answer : 216

Direction:

**Simplify the following questions:**

- Question No. 45

$$75\% \text{ of } \sqrt{5625} \div 0.01 = ?^2 \div 64$$

**Options :**

1. 160

2. 150
3. 360
4. 600
5. 595

Answer : 600

Direction:

**Answer the questions based on the information given below.**

Given tabular graph represent the number of patients visited in different three months i.e., March, April and May in four different hospitals A, B C and D in a city.

	March	April	May
A	1600	1855	1730
B	1200	1500	1465
C	1460	1125	1500
D	1185	1485	1020

- Question No. 46

If the consulting fees in April is Rs. 400 and in May it has been increased by 12.5%, then what is the total amount earned by the hospital B in April and May respectively?

**Options :**

1. Rs. 1259250
2. Rs. 1269250
3. Rs. 1259650
4. Rs. 1259260
5. Rs. 1256250

Answer : Rs. 1259250

Direction:

**Answer the questions based on the information given below.**

Given tabular graph represent the number of patients visited in different three months i.e., March, April and May in four different hospitals A, B C and D in a city.

	March	April	May
A	1600	1855	1730
B	1200	1500	1465
C	1460	1125	1500
D	1185	1485	1020

- Question No. 47

The sum of patients who visited in March and April in hospital A is how much percent more than the number of patients visited in April in hospital B?

Options :

1. 130 (2/3)%
2. 120 (1/3)%
3. 120 (2/3)%
4. 130 (1/3)%
5. None of these

Answer : 130 (1/3)%

Direction:

**Answer the questions based on the information given below.**

Given tabular graph represent the number of patients visited in different three months i.e., March, April and May in four different hospitals A, B C and D in a city.

	March	April	May
A	1600	1855	1730
B	1200	1500	1465
C	1460	1125	1500
D	1185	1485	1020

- Question No. 48

What is the ratio of the number of patients who visited in April in hospital C to the sum of number of patients who visited in May in hospitals C and D together?

Options :

1. 24:57
2. 25:56
3. 23:56
4. 27:56
5. 25:57

Answer : 25:56

Direction:

Answer the questions based on the information given below.

Given tabular graph represent the number of patients visited in different three months i.e., March, April and May in four different hospitals A, B C and D in a city.

	March	April	May
A	1600	1855	1730
B	1200	1500	1465
C	1460	1125	1500
D	1185	1485	1020

- Question No. 49

What is the average number of patients who visited in March in hospitals A, C and D?

**Options :**

1. 1215
2. 1315
3. 1425
4. 1305
5. 1415

Answer : 1415

Direction:

**Answer the questions based on the information given below.**

Given tabular graph represent the number of patients visited in different three months i.e., March, April and May in four different hospitals A, B C and D in a city.

	March	April	May
A	1600	1855	1730
B	1200	1500	1465
C	1460	1125	1500
D	1185	1485	1020

- Question No. 50

If number of patients who visited in March in hospital E is 30% more than that who visited in hospital B while the number of patients who visited in April in hospital E is 20% less than that who visited in hospital B, then find the sum of the patients who visited in March and April in hospital E.

**Options :**

1. 2660
2. 2360

- 3. 2700
- 4. 2760
- 5. 2560

Answer : 2760

• Question No. 51

240 ml of mixture 'A' contains milk and water in the ratio 5:7 respectively. If the quantity of milk in mixture 'B' is 32.5% more than that in mixture 'A' and is 25% of the total quantity of mixture 'B' then find the total quantity of mixture 'B'.

Options :

- 1. 530 ml
- 2. 424 ml
- 3. 572 ml
- 4. 753 ml
- 5. None of these

Answer : 530 ml

• Question No. 52

A shopkeeper sold a school bag at a profit of 60%. Had he sold the school bag at 20% profit he would have earned Rs.164 less. Find the cost price of the school bag.

Options :

- 1. Rs.410
- 2. Rs.740
- 3. Rs.610
- 4. Rs.520
- 5. None of these

Answer : Rs.410

- Question No. 53

Pipe A alone fill the tank in  $x$  hours and Pipe B alone fill the tank in  $(x - 5)$  hours. If the efficiency of pipe B is double of pipe A and pipe A fill the tank is 55 liters per hour, then what is the capacity of the tank?

**Options :**

1. 675 liters
2. 550 liters
3. 600 liters
4. 525 liters
5. None of these

Answer : 550 liters

- Question No. 54

A certain amount earns simple interest of Rs. 1280 after 3 years. Had the interest been 5% more, how much more interest would it have earned?

**Options :**

1. Rs. 108
2. Rs. 100
3. Rs. 116
4. Cannot be determined
5. None of these

Answer : Cannot be determined

- Question No. 55

The sum of the perimeters of a square and a rectangle is 120 metres. If the sum of the length and breadth of the rectangle is 30 cm, then find the area of the square.

**Options :**

1. 225 sq.metre
2. 169 sq.metre
3. 256 sq.metre
4. 196 sq.metre
5. None of these

Answer : 225 sq.metre

3. 10

4. 7

5. 14

Answer : 14

Direction:

**What value should come in place of (?)**.

- Question No. 65

$$918 \div 17 + 588 \div 14 + ? = 66\% \text{ of } 2400$$

**Options :**

1. 1862

2. 1488

3. 1865

4. 1525

5. 2069

Answer : 1488

- Question No. 66

'A', 'B' and 'C' started a business by investing Rs. 5000, Rs. 6000 and Rs. 4000, respectively. After 4 months, 'B' left and 'A' and 'C' added Rs. 1000 each to their respective initial investment. Find the ratio of annual profit received by 'A', 'B' and 'C'.

**Options :**

1. 17:6:14

2. 17:8:12

3. 19:6:16

4. 18:15:16

5. 19:9:25

Answer : 17:6:14

- Question No. 67

X can do a piece of work in 25 days. He worked at it for 5 days and then Y finished it in 24 days. In how many days can X and Y together finish the work?

**Options :**

1. 140/11 days
2. 150/11 days
3. 130/11 days
4. 120/11 days
5. None of these

Answer : 150/11 days

- Question No. 68

The ratio of the present ages of father and his son is 7:5. The product of their ages 3 years ago was 32 times of his son's age that year. What was son's age 4 year ago?

**Options :**

1. 17 years
2. 12 years
3. 21 years
4. 26 years
5. None of these

Answer : 21 years

- Question No. 69

A man can row at 6 kmph in still water. If the velocity of current is 3 kmph and it takes him 8 hour to row to a place and come back, how far is the place?

**Options :**

1. 10 km
2. 14 km
3. 18 km
4. 16 km
5. 12 km

Answer : 18 km

• Question No. 70

The average age of a class of 23 girls is 15 years. If 2 new girls having average age of 10 years join the class, then the average age of the class becomes:

Options :

1. 17.5 years
2. 13.6 years
3. 15.2 years
4. 14.6 years
5. None of these

Answer : 14.6 years

- Question No. 83

Many people realized that the pill was just a vitamin tablet and what really changed their disease was the

\_\_\_\_\_.

**Options :**

1. heterologous
2. placebo
3. greenlight
4. nocebo
5. None of these

Answer : placebo

Direction:

**Choose the correct word from the options to fill in the blanks.**

- Question No. 84

It is a necessity to \_\_\_\_\_ this project, but I don't understand why the government is hesitating.

**Options :**

1. greenlight
2. heterologous
3. quite
4. comorbidities
5. None of these

Answer : greenlight

Direction:

**Fill in the blank with appropriate option.**

- Question No. 85

The stricter tax norms helped the government fill its \_\_\_\_\_.

**Options :**

1. Elephant in the room
2. Rejig
3. Distil
4. Coffers
5. Fork out

Answer : Coffers

Direction:

**Choose a suitable word from the options to fill in the blanks.**

- Question No. 86

This cream helps \_\_\_\_\_ the skin from harmful radiation from the sun.

**Options :**

1. collaborate
2. bail out
3. buffer
4. precarious
5. none of these

Answer : buffer

Direction:

**Read the passage and answer the question that follow.**

The pandemic has rocked the restaurant industry and showed just how agile it isn't. Faced with challenges, more than 70,000 restaurants across the U.S. have permanently closed. Restaurants had to quickly pivot to curbside pickup and delivery and adjust their menus and staffing in hopes of staying afloat. Now, several months into the pandemic, we can see how the restaurant industry will be permanently changed by Covid-19. The **upshot** of the pandemic was thought to be a great damage the restaurant business. But the pandemic is a chance for restaurants to innovate and find new, creative ways to serve customers.

Restaurants have always had to pass health inspections, but a greater focus on cleanliness and health is forcing restaurants to double-down on their efforts. Zagat's Future of Dining Study found that 3 in 4 diners say health and safety concerns are their biggest deterrent to the **flow** of business. Diners are looking for restaurants to be transparent about their cleanliness procedures, so restaurants must use clear optics of what they are doing to keep diners safe. Customers are looking for things like single-use menus, disposable silverware, signs placed on tables that have been sanitized, hand sanitizing stations and employees wearing masks. How the food is served will also be affected, with diners preferring individual or pre-packaged meals instead of family-style dining.

Restaurants will likely need to invest in new cleaning supplies and training to teach employees new procedures, as well as marketing and signage to inform diners of the new procedures. Like most other industries, restaurants have experienced rapid digital acceleration. Throughout the pandemic, restaurants with a strong digital presence, such as easy online or mobile ordering or a robust digital loyalty program, have seen increased engagement with customers. Most signs point to customers staying digitally engaged after the pandemic.

Restaurants will continue to move to frictionless ordering and payment with an increase in online and mobile orders for pickup and delivery. The restaurant industry is ripe for technological innovation— anything from digital

menus to tableside ordering and guest engagement apps can transform the dining experience to match new customer trends. But in order to accommodate these trends, restaurants must invest in new technology, which can be costly. To preserve the safety of customers and employees and stay relevant, however, it might be a required cost for post-Covid-19 restaurants. Restaurants are moving to more local ingredients and innovative uses for the same ingredients. Menu items are also shifting towards smaller portions, which are not only less expensive for diners during strange economic times, but also aren't as time-consuming to eat, which makes for a quicker dining experience with less chance of exposure. Takeout orders increased dramatically during the pandemic, and they don't show any signs of slowing down. Diners, especially the rich people, have had meals delivered to their doors for months, so now many are less inclined to leave their homes to dine in a restaurant, even when it is safe to do so.

Now that restaurants have had more than six months to perfect their carry-on and delivery procedures, customers expect a fairly seamless transaction. Clear signage and fast service make for a quality pickup or delivery experience. And with more delivery options than ever before, diners have alternatives if their chosen restaurant doesn't offer a smooth experience. Many restaurants have partnered with third-party delivery companies and established physical measures, such as drive-thru lanes dedicated to picking up online and mobile orders. Dedicating space and resources to pickup and delivery could be a major boost for restaurants.

• Question No. 87

What factor is making the restaurants to strengthen their efforts, during the covid-19 pandemic?

Options :

1. The quantity of food produced, that would solve the problems of availability of staples.
2. Their focus on the issue of cleanliness and safety of food.
3. The competition among the restaurants to provide cheap food to the people who need it.
4. Their availability round the clock.
5. All of these

Answer : Their focus on the issue of cleanliness and safety of food.

Direction:

**Read the passage and answer the question that follow.**

• Question No. 88

According to the passage, what should the restaurants invest on?

**Options :**

1. Maximising profit by minimising the cost of production.
2. Finding the optimum rate at which a particular food item can be sold.
3. Building a good relationship with the customer, by giving them ample food at a cheaper rate during the pandemic.
4. In training employees, marketing and cleanliness.
5. Managing the delivery partners, and introducing self-delivery systems.

Answer : In training employees, marketing and cleanliness.

Direction:

**Read the passage and answer the question that follow.**

Dedicating space and resources to pickup and delivery could be a major boost for restaurants.

- Question No. 89

What mitigating strategies are taken by restaurants to reduce the high cost, while following the trends?

**Options :**

1. Switching to local ingredients, and reducing the quantity of food.
2. Encouraging dining-in, which could cut down the exorbitant delivery charge.
3. Compromising on the quality a bit, and cutting down very high nutritional items from common menu.

4. Planning their working hours and laying off employees.
5. All of these

Answer : Switching to local ingredients, and reducing the quantity of food.

Direction:

Restaurants will likely need to invest in new cleaning supplies and training to teach employees new procedures, as well as marketing and signage to inform diners of the new procedures. Like most other industries, restaurants have experienced rapid digital acceleration. Throughout the pandemic, restaurants with a strong digital presence, such as easy online or mobile ordering or a robust digital loyalty program, have seen increased engagement with customers. Most signs point to customers staying digitally engaged after the pandemic.

Restaurants will continue to move to frictionless ordering and payment with an increase in online and mobile orders for pickup and delivery. The restaurant industry is ripe for technological innovation— anything from digital menus to tableside ordering and guest engagement apps can transform the dining experience to match new customer trends. But in order to accommodate these trends, restaurants must invest in new technology, which can be costly. To preserve the safety of customers and employees and stay relevant, however, it might be a required cost for post-Covid-19 restaurants. Restaurants are moving to more local ingredients and innovative uses for the same ingredients. Menu items are also shifting towards smaller portions, which are not only less expensive for

diners during strange economic times, but also aren't as time-consuming to eat, which makes for a quicker dining experience with less chance of exposure. Takeout orders increased dramatically during the pandemic, and they don't show any signs of slowing down. Diners, especially the rich people, have had meals delivered to their doors for months, so now many are less inclined to leave their homes to dine in a restaurant, even when it is safe to do so. Now that restaurants have had more than six months to perfect their carry-on and delivery procedures, customers expect a fairly seamless transaction. Clear signage and fast service make for a quality pickup or delivery experience. And with more delivery options than ever before, diners have alternatives if their chosen restaurant doesn't offer a smooth experience. Many restaurants have partnered with third-party delivery companies and established physical measures, such as drive-thru lanes dedicated to picking up online and mobile orders. Dedicating space and resources to pickup and delivery could be a major boost for restaurants.

• Question No. 90

Why the rich people cannot give up on restaurants, after the pandemic?

Options :

1. They are accustomed to getting food delivered at their doorstep.
2. They understood that getting food delivered is a sign of higher social status.
3. They could not find ingredients that would be cheap and healthy at the same time, after the pandemic.
4. They want to show off their wealth by ordering from expensive restaurants.
5. They are committed to the society and wants to restaurants, where most of the socialising takes place, at all cost.

Answer : They are accustomed to getting food delivered at their doorstep.

**Read the passage and answer the question that follow.**

The pandemic has rocked the restaurant industry and showed just how agile it isn't. Faced with challenges, more than 70,000 restaurants across the U.S. have permanently closed. Restaurants had to quickly pivot to curbside pickup and delivery and adjust their menus and staffing in hopes of staying afloat. Now, several months into the pandemic, we can see how the restaurant industry will be permanently changed by Covid-19. The **upshot** of the pandemic was thought to be a great damage the restaurant business. But the pandemic is a chance for restaurants to innovate and find new, creative ways to serve customers.

Restaurants have always had to pass health inspections, but a greater focus on cleanliness and health is forcing restaurants to double-down on their efforts. Zagat's Future of Dining Study found that 3 in 4 diners say health and safety concerns are their biggest deterrent to the **flow** of business. Diners are looking for restaurants to be transparent about their cleanliness procedures, so restaurants must use clear optics of what they are doing to keep diners safe. Customers are looking for things like single-use menus, disposable silverware, signs placed on tables that have been sanitized, hand sanitizing stations and employees wearing masks. How the food is served will also be affected, with diners preferring individual or pre-packaged meals instead of family-style dining.

Restaurants will likely need to invest in new cleaning supplies and training to teach employees new procedures, as well as marketing and signage to inform diners of the new procedures. Like most other industries, restaurants have experienced rapid digital acceleration. Throughout the pandemic, restaurants with a strong digital presence, such as easy online or mobile ordering or a robust digital loyalty program, have seen increased engagement with customers. - Question No. 91

What can diners do, according to the passage, if a restaurant does not meet their standards?

**Options :**

1. They cannot make much of a choice, as the pandemic has limited the choices for people.
2. They can make a complaint to the Food and Safety Department and wait for the action.
3. They can choose another restaurant, as ample choices are available.
4. They can directly call the support team at the restaurant and get their complaint solved.
5. They can ask for a compensation from the restaurant.

Answer : They can choose another restaurant, as ample choices are available.
