**In the following passage, some of the words have been left out, each of which is indicated by a number. Find the suitable word from the options given against each number and fill up the blanks with appropriate words to make the paragraph meaningfully complete.**

India's second moon mission, Chandrayaan-2, was \_\_\_\_\_1\_\_\_\_\_ from launch just 56 minutes before its scheduled liftoff on July 15. This was owing to a technical glitch in the GSLV Mark-III rocket launcher. No rescheduled date has been \_\_\_\_\_2\_\_\_\_\_ for launch. This has no doubt served as a damper on those who eagerly looked forward to India being only the fourth country to launch a mission that would land on the moon, and the very first to land on and explore its south pole region. Yet, it was best that the glitch was \_\_\_\_\_3\_\_\_\_\_ before the launch. Rocket launches always have a nail-biting finish. Even the GSLV-D1, the slighter predecessor to the GSLV Mark-III, \_\_\_\_\_4\_\_\_\_\_ such a setback when it was about to be launched for its first developmental test flight in 2001. It was called off exactly one second before launch, as it was discovered that one of the four liquid propellant strap-on stages had not developed the required thrust. This test flight was \_\_\_\_\_5\_\_\_\_\_ just 21 days later, paving the way for several successful launches of the GSLV rocket subsequently.

- Question No. 1

Choose the most appropriate option to fill the blank.

Options :

1. pulled at
2. pulled off
3. pulled back
4. pulled down
5. none of these

Answer : pulled back

**Read the passage carefully and answer the following questions.**

A 43-year-old client tells me, "I have become friends with a 26-year-old woman I met at my Pilates class. For the longest time I kept judging her, because she was constantly on the phone. Then some time ago, she asked me if I knew someone who could cook for her as she lives alone and hasn't been able to find a good cook. The more I talked to her, I realised how judgmental I had been about her life assuming she has it easy. Yesterday she was going for a salsa trial class, and invited me to come with her. I felt so touched and realised how being around a person who's young, filled with dreams and ambition is so energising and inspiring. I feel less jaded and bitter. I thought I never could be friends with someone who's not my age and now this friendship is one of the highlights of 2023."

Inter-generational friendships have a beauty of their own. At a time when we are working remotely and in hybrid ways, glued to our phones and devices, struggling with loneliness and finding community, inter-generational friendships feel like a breath of fresh air. Very often I ask clients to mindfully work towards building and strengthening these friendships. For clients who are doing long-term therapy work, sometimes it's part of their homework. Particularly when people are transitioning to a different city or country; going through changes such as marriage, motherhood, children moving out of homes; or experiencing grief. These are times when we might not feel centered, and find no solace in friends, especially if they have not experienced something similar, or are developmentally at a different life stage.

A 30-year-old client mentioned that when she lost her mother, none of her friends could really understand, or be there in ways she needed them because they had not experienced parental grief, and it was her intergenerational friendships that helped her. Cross-generational friendships have the power to provide us hope and help us feel anchored. However, I must say that I hear more women talk about the power of these friendships compared to men. Even in therapy, it is the female clients who talk about how at an exercise class, book club, or then in their own neighbourhood, they have forged these friendships. Having said that, no matter how and when these friendships are formed, they allow both younger and older folks a new lens of being.

These friendships offered a place to laugh, spend time together, and also guidance and mentorship. It felt calming and stabilising and that's when I realised how a sense of community brings such a feeling of belonging and being seen. Clients say these friendships allow them to not get stuck in their own echo chambers, have openness in their

hearts and perspective when it comes to the bigger picture. Our capacity for openness and perspective are qualities which are deeply associated with resilience.

• Question No. 21

What was the initial reaction of the 43-year-old client towards the 26-year-old woman she met at Pilates class?

**Options :**

1. She was impressed by her youthful energy.
2. She was intrigued by her ability to stay connected with others.
3. She was judgmental and assumed the younger woman had an easy life.
4. She was supportive of the younger woman's efforts to find a cook.
5. None of the above

Answer : She was judgmental and assumed the younger woman had an easy life.

Direction:

- Question No. 24

Why might women discuss the benefits of inter-generational friendships more frequently than men, according to the passage?

**Options :**

1. Women are more likely to engage in activities like exercise classes and book clubs where such friendships are formed.
2. Women have more time to devote to maintaining diverse social connections.
3. Men generally prefer friendships within their own age group and are less open to inter-generational relationships.
4. Women are more likely to experience grief and loss, leading them to seek support from different age groups.
5. All of the above

Answer : Women are more likely to engage in activities like exercise classes and book clubs where such friendships are formed.

I felt so touched and realised how being around a person who's young, filled with dreams and ambition is so energising and inspiring. I feel less jaded and bitter. I thought I never could be friends with someone who's not my age and now this friendship is one of the highlights of 2023."

Inter-generational friendships have a beauty of their own. At a time when we are working remotely and in hybrid ways, glued to our phones and devices, struggling with loneliness and finding community, inter-generational

friendships feel like a breath of fresh air. Very often I ask clients to mindfully work towards building and strengthening these friendships. For clients who are doing long-term therapy work, sometimes it's part of their homework. Particularly when people are transitioning to a different city or country; going through changes such as marriage, motherhood, children moving out of homes; or experiencing grief. These are times when we might not feel centered, and find no solace in friends, especially if they have not experienced something similar, or are developmentally at a different life stage.

A 30-year-old client mentioned that when she lost her mother, none of her friends could really understand, or be there in ways she needed them because they had not experienced parental grief, and it was her intergenerational friendships that helped her. Cross-generational friendships have the power to provide us hope and help us feel anchored. However, I must say that I hear more women talk about the power of these friendships compared to men. Even in therapy, it is the female clients who talk about how at an exercise class, book club, or then in their own neighbourhood, they have forged these friendships. Having said that, no matter how and when these friendships are formed, they allow both younger and older folks a new lens of being.

These friendships offered a place to laugh, spend time together, and also guidance and mentorship. It felt calming and stabilising and that's when I realised how a sense of community brings such a feeling of belonging and being seen. Clients say these friendships allow them to not get stuck in their own echo chambers, have openness in their hearts and perspective when it comes to the bigger picture. Our capacity for openness and perspective are qualities which are deeply associated with resilience.

- Question No. 25

What role do inter-generational friendships play in providing emotional support, as highlighted in the passage?

**Options :**

1. They offer a professional network for career advancement.
2. They help individuals remain within their own social echo chambers.
3. They provide guidance, mentorship, and a stabilizing influence during times of emotional need.
4. They mainly focus on shared hobbies and interests without addressing emotional needs.
5. All of the above

Answer : They provide guidance, mentorship, and a stabilizing influence during times of emotional need.

**Read the passage carefully and answer the following questions.**

A 43-year-old client tells me, "I have become friends with a 26-year-old woman I met at my Pilates class. For the longest time I kept judging her, because she was constantly on the phone. Then some time ago, she asked me if I knew someone who could cook for her as she lives alone and hasn't been able to find a good cook. The more I talked to her, I realised how judgmental I had been about her life assuming she has it easy. Yesterday she was going for a salsa class, and invited me to come with her. I felt so touched and realised how being around a person who's young, filled with dreams and ambition is so energising and inspiring. I feel less jaded and bitter. I thought I never could be friends with someone who's not my age and now this friendship is one of the highlights of 2023."

- Question No. 26

What central theme is conveyed about inter-generational friendships in the passage?

**Options :**

1. They are beneficial primarily for professional and career growth.
2. They provide a sense of community and broaden one's perspective, enhancing resilience.
3. They often lead to misunderstandings due to differing life stages.
4. They are more common among men than women in social settings.
5. None of the above

Answer : They provide a sense of community and broaden one's perspective, enhancing resilience.

Answer : 8

Direction:

**What will come in place of question mark?**

- Question No. 58

$$1365 \div 15 + (? \div 5) = 6^2 \times 3.5$$

**Options :**

1. 165
2. 125
3. 175
4. 165
5. 110

Answer : 175

Direction:

**What will come in place of question mark (?)**

- Question No. 59

$$\sqrt{?} = 80\% \text{ of } 720 - 22\% \text{ of } 2500$$

**Options :**

1. 676
2. 650

- 3. 550
- 4. 632
- 5. none of these

Answer : 676

Direction:

What will come in place of question mark (?)

- Question No. 60

$$\{(48^2 / 32) + 18\} / 5 = 9 \times ?$$

Options :

- 1. 6
- 2. 5
- 3. 2
- 4. 4
- 5. none of these

Answer : 2

Direction:

What will come in place of question mark (?)

- Question No. 61

$$?\% \text{ of } 500 = 674 - 18\% \text{ of } 800$$

Options :

- 1. 160
- 2. 140
- 3. 106
- 4. 180
- 5. none of these

Answer : 106

Direction:

**What will come in the place of question mark (?) in the given expression?**

- Question No. 62

$$(6^2 - 5^2) \% \text{ of } 800 = 22 \times \sqrt{?}$$

**Options :**

1. 22
2. 18
3. 10
4. 16
5. None of these

Answer : 16

Direction:

**What will come in the place of question mark (?) in the given expression?**

- Question No. 63

$$(744 \div 6) - (120/5) + 5.5\% \text{ of } 800 = ?^2$$

**Options :**

1. 20
2. 28
3. 22
4. 18
5. None of these

Answer : None of these

Direction:

**What will come in the place of question mark (?) in the given expression?**

- Question No. 64

500% of  $(121.8 + 16.4 - 28.2) = ? \times 2$

**Options :**

1. 275
2. 327
3. 200
4. 176
5. None of these

Answer : 275

Direction:

**What will come in the place of question mark (?) in the given expression?**

- Question No. 65

35% of  $840 + 16^2 = ? - 25\% \times 300$

**Options :**

1. 650
2. 552
3. 625
4. 220
5. None of these

Answer : 625

Direction:

**Study the following information carefully and answer the below questions**

Seven boxes – W, X, Y, Z, A, B and C are kept one above the other in a single stack, but not necessarily in the same order. Box B is kept three boxes above box A. Only one box is kept between box B and box Y. Box Y is kept two boxes above box X. Only two boxes are kept between box Y and box Z. As many boxes are kept above box X as below box C.

- Question No. 66

Which among the following box is kept just above box Y?

**Options :**

1. The box which is kept second from the bottom
2. The box which is kept third from the top
3. The box which is kept fourth from the bottom
4. The box which is kept second from the top
5. None of these

Answer : The box which is kept fourth from the bottom

Direction:

**Study the following information carefully and answer the below questions**

Seven boxes – W, X, Y, Z, A, B and C are kept one above the other in a single stack, but not necessarily in the same order. Box B is kept three boxes above box A. Only one box is kept between box B and box Y. Box Y is kept two boxes above box X. Only two boxes are kept between box Y and box Z. As many boxes are kept above box X as below box C.

- Question No. 67

What is the position of box W from the bottom?

**Options :**

1. Second
2. Fifth
3. First
4. Fourth
5. Third

Answer : Fourth

Direction:

**Study the following information carefully and answer the below questions**

Seven boxes – W, X, Y, Z, A, B and C are kept one above the other in a single stack, but not necessarily in the same order. Box B is kept three boxes above box A. Only one box is kept between box B and box Y. Box Y is kept two

boxes above box X. Only two boxes are kept between box Y and box Z. As many boxes are kept above box X as below box C.

- Question No. 68

Which of the following pair has two boxes between them?

**Options :**

1. Z, C
2. Y, X
3. A, W
4. Y, Z
5. Other than the given option

Answer : Y, Z

Direction:

**Study the following information carefully and answer the below questions**

Seven boxes – W, X, Y, Z, A, B and C are kept one above the other in a single stack, but not necessarily in the same order. Box B is kept three boxes above box A. Only one box is kept between box B and box Y. Box Y is kept two boxes above box X. Only two boxes are kept between box Y and box Z. As many boxes are kept above box X as below box C.

- Question No. 69

Which of the following boxes are kept above box B?

- I) Y
- II) Z
- III) C

**Options :**

1. Both I and III

2. Only III
3. Both I and II
4. Both II and III
5. None of these

Answer : Both II and III

Direction:

**Study the following information carefully and answer the below questions**

Seven boxes – W, X, Y, Z, A, B and C are kept one above the other in a single stack, but not necessarily in the same order. Box B is kept three boxes above box A. Only one box is kept between box B and box Y. Box Y is kept two boxes above box X. Only two boxes are kept between box Y and box Z. As many boxes are kept above box X as below box C.

- Question No. 70

Which of the following box is kept three boxes above box W?

**Options :**

1. Box Z
2. Box Y
3. Box X
4. Box C
5. None of these

Answer : Box C

Direction:

**Study the given information carefully and answer the given question below it:**

Point K is 16m to the north of point L. Point M is 4m to the west of point K. Point N is 24m to the north of point M. point O is 10m to the east of point N.

- Question No. 71

If H is 12m to the south of point N, then find the distance between H and K?

**Options :**

1.  $2\sqrt{10}m$
2.  $4\sqrt{10}m$
3.  $6\sqrt{5}m$
4.  $4\sqrt{5}m$
5. None of these

Answer :  $4\sqrt{10}m$

Direction:

**Study the given information carefully and answer the given question below it:**

Point K is 16m to the north of point L. Point M is 4m to the west of point K. Point N is 24m to the north of point M.  
point O is 10m to the east of point N.

- Question No. 72

In which direction and at what distance is point M with respect to point O?

**Options :**

1. 26m, South-East
2. 25m, South-West
3. 26m, South-West
4. 27m, North-East
5. None of these

Answer : 26m, South-West

Direction:

**Study the given information carefully and answer the given question below it:**

Point K is 16m to the north of point L. Point M is 4m to the west of point K. Point N is 24m to the north of point M.  
point O is 10m to the east of point N.

- Question No. 73

In which direction is point N with respect to point L?

**Options :**

1. North-East
2. South-East
3. North-West
4. South-West
5. None of these

Answer : North-West

• Question No. 74

If a four-letter meaningful English word is formed by using the 2nd, 3rd, 6th and 8th letter (from the left end) of the word 'DELEGATION' then which of the following will be 2nd letter of the word formed from the left end. If more than one such meaningful word is formed mark 'Y' as your answer. If no meaningful word is formed, mark 'Z' as your answer.

**Options :**

1. L
2. E
3. Z
4. A
5. Y

Answer : Z

• Question No. 75

How many pairs of letters are there in the word 'DIMNISHING' which has as many letters between them (only backward) in the word as in the English alphabetical series?

**Options :**

1. Five

2. Three
3. Six
4. Two
5. None

Answer : Three

Direction:

**Read the directions carefully and answer the following questions.**

Eight persons Akshit, Akash, Abhishek, Abhinav, Anubhav, Aarav, Akhil, Abhay are born in different months January, February, March, April, May, June, July, and September but not necessarily in the same order. Akshit is born in a month having days less than 31 days. Two people are between Akshit and Abhay. Abhay is born after Akshit. Abhishek is born immediate before Akshit. Equal number of person are born between Abhishek and Akash, and Akash and Abhay. Aarav was born before Akhil and after Anubhav. Akhil was not born in a month which has 30 days.

- Question No. 76

Who among the following is born exactly before Abhinav?

**Options :**

1. Akhil
2. Akshit
3. Akash
4. Abhishek
5. Abhay

Answer : Akhil

Direction:

**Read the directions carefully and answer the following questions.**

Eight persons Akshit, Akash, Abhishek, Abhinav, Anubhav, Aarav, Akhil, Abhay are born in different months January, February, March, April, May, June, July, and September but not necessarily in the same order. Akshit is born in a month having days less than 31 days. Two people are between Akshit and Abhay. Abhay is born after Akshit. Abhishek is born immediate before Akshit. Equal number of person are born between Abhishek and Akash, and

Akash and Abhay. Aarav was born before Akhil and after Anubhav. Akhil was not born in a month which has 30 days.

• Question No. 77

If all of them are born in a same year then who is the eldest of them?

**Options :**

1. Akhil
2. Akshit
3. Akash
4. Abhishek
5. Abhinav

Answer : Abhishek

Direction:

**Read the directions carefully and answer the following questions.**

• Question No. 79

Who among the following is born in a month having the least days?

**Options :**

1. Akhil
2. Akshit
3. Akash
4. Abhishek
5. Abhinav

Answer : Akshit

Direction:

**Read the directions carefully and answer the following questions.**

Eight persons Akshit, Akash, Abhishek, Abhinav, Anubhav, Aarav, Akhil, Abhay are born in different months January, February, March, April, May, June, July, and September but not necessarily in the same order. Akshit is born in a month having days less than 31 days. Two people are between Akshit and Abhay. Abhay is born after Akshit. Abhishek is born immediate before Akshit. Equal number of person are born between Abhishek and Akash, and Akash and Abhay. Aarav was born before Akhil and after Anubhav. Akhil was not born in a month which has 30 days.

- Question No. 80

Find the odd one from the following.

**Options :**

1. Akhil
2. Abhay
3. Akash
4. Abhishek
5. Abhinav

Answer : Abhinav

Direction:

**In the following question assuming the given statements to be true, find which of the option among the given options is/are definitely true and then give your answers accordingly:-**

- Question No. 81

**Statement:**

$Q \leq C > R > M, L > Y > G \geq M$

**Conclusions:**

I.  $C > Y$

II.  $L > Q$

**Options :**

1. Only I is true
2. Only II is true
3. Either I or II is true
4. Neither I nor II is true
5. Both I and II is true

Answer : Neither I nor II is true

Direction:

In the following question assuming the given statements to be true, find which of the option among the given options is/are definitely true and then give your answers accordingly:-

- Question No. 82

**Statement:**

$$B > E > D = S > C, A > V = D$$

**Conclusions:**

I.  $R > C$

II.  $B > A$

**Options :**

1. Only I is true
2. Only II is true
3. Either I or II is true
4. Neither I nor II is true
5. Both I and II is true

Answer : Only I is true

Direction:

In the following question assuming the given statements to be true, find which of the option among the given options is/are definitely true and then give your answers accordingly:-

- Question No. 83

**Statement:**

$$N > L > M = U > S > G F$$

**Conclusions:**

I.  $G$

II.  $X$

**Options :**

1. Only I is true
2. Only II is true
3. Either I or II is true
4. Neither I nor II is true
5. Both I and II is true

Answer : Only I is true

Direction:

**In the question below there are three statements followed by two conclusions I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts.**

- Question No. 84

Statements:

Only a few Yarn are Sweater.

Some Sweater are not Shirt.

Some Shirt are Shirt.

Conclusions:

I. All Sweater are Yarn.

II. Some Shirt being Yarn is a possibility.

**Options :**

1. Both conclusion I and conclusion II follow
2. Only conclusion II follows
3. Only conclusion I follows
4. Neither conclusion I nor conclusion II follows
5. Either conclusion I or II follows

Answer : Only conclusion II follows

Direction:

**In the question below there are three statements followed by two conclusions I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts.**

- Question No. 85

Statements

Only a few Peacocks are Hens

All Hens are Tigers.

Some Tigers are Lions.

Conclusions

I. All Tiger is being Peacock is a possibility.

II. Some Hens are Lions.

Options :

1. Both conclusion I and conclusion II follow
2. Only conclusion II follows
3. Only conclusion I follows
4. Neither conclusion I nor conclusion II follows
5. Either conclusion I or II follows

Answer : Only conclusion I follows

Direction:

**In the question below there are three statements followed by two conclusions I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts.**

- Question No. 86

Statements:

Few language is program.

Only a few program is command.

At least some command is order.

Conclusions:

I. Some program is not command.

II. All order can be language.

**Options :**

1. Both conclusion I and conclusion II follow
2. Only conclusion II follows
3. Only conclusion I follows
4. Neither conclusion I nor conclusion II follows
5. Either conclusion I or II follows

Answer : Both conclusion I and conclusion II follow

Direction:

**Read the directions carefully and answer the following question.**

Prakash, Milan, Raman, Sudhir, Kartik, Komal and Preetam are seven person sitting around a circular table not necessarily in the same order. All are facing inside.

Kartik sits third to the left of Preetam. Milan sits immediate left of Raman and in not an immediate neighbour of Kartik. Prakash is an immediate neighbour of Sudhir and Preetam. Komal sits second to the right of Prakash.

- Question No. 87

Who among the following sits fifth to the right of Kartik?

**Options :**

1. Sudhir
2. Preetam
3. Milan
4. Raman
5. Prakash

Answer : Milan

Direction:

**Read the directions carefully and answer the following question.**

Prakash, Milan, Raman, Sudhir, Kartik, Komal and Preetam are seven person sitting around a circular table not necessarily in the same order. All are facing inside.

Kartik sits third to the left of Preetam. Milan sits immediate left of Raman and in not an immediate neighbour of Kartik. Prakash is an immediate neighbour of Sudhir and Preetam. Komal sits second to the right of Prakash.

• Question No. 88

How many person are sitting between Komal and Sudhir, when counted in anti- clockwise direction starting with Sudhir?

Options :

1. One
2. Two
3. Three
4. Four
5. Five

Answer : Two

Direction:

**Read the directions carefully and answer the following question.**

Prakash, Milan, Raman, Sudhir, Kartik, Komal and Preetam are seven person sitting around a circular table not necessarily in the same order. All are facing inside.

Kartik sits third to the left of Preetam. Milan sits immediate left of Raman and in not an immediate neighbour of Kartik. Prakash is an immediate neighbour of Sudhir and Preetam. Komal sits second to the right of Prakash.

• Question No. 89

How many person live between the person who sits immediate right of Prakash and the person who sits immediate left of the person who sits immediate left of Sudhir?

**Options :**

1. One
2. Two
3. Three
4. Four
5. Five

Answer : Three

Direction:

**Read the directions carefully and answer the following question.**

Prakash, Milan, Raman, Sudhir, Kartik, Komal and Preetam are seven person sitting around a circular table not necessarily in the same order. All are facing inside.

Kartik sits third to the left of Preetam. Milan sits immediate left of Raman and in not an immediate neighbour of Kartik. Prakash is an immediate neighbour of Sudhir and Preetam. Komal sits second to the right of Prakash.

- Question No. 90

Who among the following lives to the immediate right of Milan?

**Options :**

1. Prakash
2. Kartik
3. Raman
4. Preetam
5. Komal

Answer : Raman

Direction:

**Read the directions carefully and answer the following question.**

Prakash, Milan, Raman, Sudhir, Kartik, Komal and Preetam are seven person sitting around a circular table not necessarily in the same order. All are facing inside.

Kartik sits third to the left of Preetam. Milan sits immediate left of Raman and in not an immediate neighbour of Kartik. Prakash is an immediate neighbour of Sudhir and Preetam. Komal sits second to the right of Prakash.

• Question No. 91

Find the odd pair out.

**Options :**

1. Milan-Kartik
2. Sudhir-Preetam
3. Prakash-Komal
4. Preetam-Milan
5. Raman-Komal

Answer : Raman-Komal

Direction:

**Study the following information carefully and answer the questions given below.**

Six persons A, B, C, D, E and G are having different number of cars. B has more car than C. E has more car than D and G. C does not have the least number of car. B has more car than E but less car than A. C has less car than G. G has 24 cars.

• Question No. 92

What is the possible number of Car does D have?

**Options :**

1. 26
2. 34
3. 25
4. 28

5. 20

Answer : 20

Direction:

**Study the following information carefully and answer the questions given below.**

Six persons A, B, C, D, E and G are having different number of cars. B has more car than C. E has more car than D and G. C does not have the least number of car. B has more car than E but less car than A. C has less car than G. G has 24 cars.

- Question No. 93

Who among the following person has the least number of Car?

Options :

1. C
2. G
3. D
4. E
5. Cannot be determined

Answer : D
