

Read the passage and answer the following questions.

The pandemic has forced many to reevaluate what they want out of life, and for some, that has meant leaving their jobs. For businesses looking to **retain** those workers, it will probably take more than simply raising wages to prevent a rush to the exits, according to a study released by management consulting firm McKinsey & Co. Offering a raise can make the difference, but the report finds that the "Great Attrition" can actually become the "Great Attraction" for companies that can also make employees feel valued in other ways.

The report found that 40% of the more than 5,770 employees surveyed said they were "at least somewhat likely" to quit in the next three to six months. More than half of employees who already left their jobs said they did so because they didn't feel valued by their bosses or organizations or because they didn't feel "a sense of belonging at work." In contrast, employers surveyed said they believed their employees left because of compensation, work-life balance and poor physical or emotional health.

The findings were based on two surveys of employers and employees across multiple industries in the U.S.,

Australia, Canada, the United Kingdom and Singapore. The employer survey included 250 talent managers from a variety of companies.

Perhaps more concerning for employers is that 36% of survey respondents who quit their jobs in the last six months left without having a new job. In the U.S., that figure jumps to 40%.

That means these workers didn't necessarily leave because they got a better offer somewhere else. Instead, it's a sign that employers don't understand how hard the pandemic has been for their employees, the report said.

Higher wages are important to many workers, but companies looking to stem the **exodus** also need to really listen to employees about what they want and include them in the process, the report said. (313 words)

(From Los Angeles Times)

• Question No.1

What is the main theme of the passage?

- 1. The pandemic and the surge of unemployment due to layoff.
- 2. Employees quitting without job offer and what companies can do to retain them
- 3. Developed countries and effective employee management
- 4. Wage, as the single criterion for employees to take up a job
- 5. None of these

Answer: Employees quitting without job offer and what companies can do to retain them

Direction:

Answer : A-D and B-C	
Direction: Six statements are given below, which are jumbled in any random order. Only the fourth statement (d), which been emboldened, is in its correct place. These statements will form a coherent and meaningful paragraph, what arranged in the correct sequence. Arrange the sentences in the right order and answer the questions that follows:	hen
(a) The Falcon's first stage returned and landed on a SpaceX droneship in the ocean.	
(b) SpaceX is also planning to launch a Turkish communications satellite from Florida.	
(c) A SpaceX rocket carried 52 Starlink internet satellites into orbit from California early Saturday.	
(d) It was the 11th launch and recovery of the stage.	
(e) The second stage continued into orbit and deployment of the satellites was confirmed by the launch	
commentator.	
(f) The two-stage Falcon 9 rocket lifted off from coastal Vandenberg Space Force Base at 4:41 am and arced of the Pacific.	over
• Question No. 27	
Which of the following is the second sentence of the paragraph after rearrangement?	
Options:	
1. e	
2. c	
3. b	
4. a	
5. f	

Six statements are given below, which are jumbled in any random order. Only the fourth statement (d), which has been emboldened, is in its correct place. These statements will form a coherent and meaningful paragraph, when arranged in the correct sequence. Arrange the sentences in the right order and answer the questions that follow.

- (a) The Falcon's first stage returned and landed on a SpaceX droneship in the ocean.
- (b) SpaceX is also planning to launch a Turkish communications satellite from Florida.
- (c) A SpaceX rocket carried 52 Starlink internet satellites into orbit from California early Saturday.
- (d) It was the 11th launch and recovery of the stage.
- (e) The second stage continued into orbit and deployment of the satellites was confirmed by the launch commentator.
- (f) The two-stage Falcon 9 rocket lifted off from coastal Vandenberg Space Force Base at 4:41 am and arced over the Pacific.
- Question No. 28

Four of the following five are alike in a certain way and hence form a group. Who among the following one does not belong to the group?

Options:

1. S

2	\cap
۷.	V

3. T

4. P

5. V

Answer: S

Direction:

Study the following information carefully and answer the below questions.

Eight people are P, Q, R, S, T, U, V, and W living in a building which has four floors numbered as 1 to 4 from bottom to top. Each floor has two flat 1 and flat 2, where flat 2 is to the east of flat 1 and the length of each flat is same. Only one person is living in each flat of the building but not necessarily in the same order. T lives on an even numbered floor but not in an even numbered flat. S lives two floors above U. Neither P nor W lives on the same floor. Q doesn't live on the same floor of V. P lives northwest of U who lives immediately below W. R lives one of the floors above T. Only one person lives between T and V both are living on the same numbered flat.

• Question No. 78

Which of the following statement(s) is/are true with respect to P?

I) P lives west of S epare Faster

II) P lives on an odd numbered floor

III) P lives on the same floor of T

Options:

- 1. Only I and III
- 2. Only III
- 3. Only I and II
- 4. Only II
- 5. None of these

Answer: Only I and II

Direction:

Study the following information carefully and answer the below questions.

Eight people are P, Q, R, S, T, U, V, and W living in a building which has four floors numbered as 1 to 4 from bottom to top. Each floor has two flat 1 and flat 2, where flat 2 is to the east of flat 1 and the length of each flat is same. Only one person is living in each flat of the building but not necessarily in the same order. T lives on an even numbered floor but not in an even numbered flat. S lives two floors above U. Neither P nor W lives on the same floor. Q doesn't live on the same floor of V. P lives northwest of U who lives immediately below W. R lives one of the floors above T. Only one person lives between T and V both are living on the same numbered flat.

• Question No. 79

On which of the following floor and flat does Q lives?

Options:

1. Floor1, Flat1
2. Floor2, Flat1
3. Floor3, Flat2
4. Floor4, Flat3
5. None of the above

Answer: Floor1, Flat1

Direction:

Study the following information carefully and answer the below questions.

Eight people are P, Q, R, S, T, U, V, and W living in a building which has four floors numbered as 1 to 4 from bottom to top. Each floor has two flat 1 and flat 2, where flat 2 is to the east of flat 1 and the length of each flat is same. Only one person is living in each flat of the building but not necessarily in the same order. T lives on an even numbered floor but not in an even numbered flat. S lives two floors above U. Neither P nor W lives on the same floor. Q doesn't live on the same floor of V. P lives northwest of U who lives immediately below W. R lives one of the floors above T. Only one person lives between T and V both are living on the same numbered flat.

• Question No. 80

Who among the following pair of persons lives on the same floor?

O	ptions	:
v	puons	•

1. P, R

2. Q, S

3. T, W

4. V, U

5. None of the above

Answer: T, W

Direction:

Study the information carefully and answer the questions given below.

An uncertain number of persons sitting in a straight line facing north. Three persons sit between P and L. M sits second to the right of P. Only three persons sit between L and R. S is immediate left of P. M sits fifth from one of the extreme ends of the row. As many persons sit between M and Q as many between Q and R. T sits second to the left of X, who is an immediate neighbor of L. Not more than two persons sit between X and R. Five persons sit between R and Y. As many persons sit between R and Z as many between Z and Y.

• Question No. 81

How many persons sitting in a row?

Options:

1.18

2.20

3. 23

4.24

5. None of these

Answer: None of these

Direction:

Study the information carefully and answer the questions given below.

An uncertain number of persons sitting in a straight line facing north. Three persons sit between P and L. M sits second to the right of P. Only three persons sit between L and R. S is immediate left of P. M sits fifth from one of the extreme ends of the row. As many persons sit between M and Q as many between Q and R. T sits second to the left of X, who is an immediate neighbor of L. Not more than two persons sit between X and R. Five persons sit between R and Y. As many persons sit between R and Z as many between Z and Y.

• Question No. 82

Who among the following person sits fourth to the right of Z?

Options:

1. L
2. T
3. X
4. R
5. None of these

Answer : T

Direction:

Study the information carefully and answer the questions given below.

An uncertain number of persons sitting in a straight line facing north. Three persons sit between P and L. M sits second to the right of P. Only three persons sit between L and R. S is immediate left of P. M sits fifth from one of the extreme ends of the row. As many persons sit between M and Q as many between Q and R. T sits second to the left of X, who is an immediate neighbor of L. Not more than two persons sit between X and R. Five persons sit between R and Y. As many persons sit between R and Z as many between Z and Y.

• Question No. 83

How many persons are sitting between X and M?

Options:

1.5

3.3

4. 4

5. More than five

Answer: More than five

Direction:

Study the information carefully and answer the questions given below.

An uncertain number of persons sitting in a straight line facing north. Three persons sit between P and L. M sits second to the right of P. Only three persons sit between L and R. S is immediate left of P. M sits fifth from one of the extreme ends of the row. As many persons sit between M and Q as many between Q and R. T sits second to the left of X, who is an immediate neighbor of L. Not more than two persons sit between X and R. Five persons sit between R and Y. As many persons sit between R and Z as many between Z and Y.

Question No. 84

If J is an immediate neighbor of S then who among the following person sits second to the left of J?

Options:

Prepare **50%** Faster

2. X

3. L

4. Q

5. None of these

Answer: L

Direction:

Read the information carefully and answer the question.

Point U is 10m north of point Q. Point T is 10m east of point U. Point S is 15m south of point T. Point P is 20m south of point Q. Point R is 25m east of point P. Point L is 15m east of point S. Point M is the midpoint of point U and P.

• Question No. 85

What is the distance between point L and R?

Options:

- 1.10m
- 2.15m
- 3. 5m
- 4. 20m
- 5. 25m

Answer: 15m

Direction:

Read the information carefully and answer the question.

Point U is 10m north of point Q. Point T is 10m east of point U. Point S is 15m south of point T. Point P is 20m south of point Q. Point R is 25m east of point P. Point L is 15m east of point S. Point M is the midpoint of point U and P.

• Question No. 86

What is the direction of T with respect of M?

Options:

- 1. North-West
- 2. South-West
- 3. South-east
- 4. North-East
- 5. None of these

Answer: North-East

Direction:

Read the information carefully and answer the question.

Point U is 10m north of point Q. Point T is 10m east of point U. Point S is 15m south of point T. Point P is 20m south of point Q. Point R is 25m east of point P. Point L is 15m east of point S. Point M is the midpoint of point U and P.

• Question No. 87

Which of the following points are inline?

Options:

- 1. P, R, S
- 2. Q, M, L
- 3. U, S, T
- 4. M, S, L
- 5. Q, S, L

Answer: M, S, L

Direction:

In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer -

• Question No. 88

Statements: $M > B = W \le G = O > P \ge K = T$

Conclusion:

₹Prepare **⊃U%** Faster

II. O ≥ B

Options:

- 1. If only conclusion I follows
- 2. If only conclusion II follows
- 3. If either conclusion I or conclusion II follows
- 4. If neither conclusion I nor conclusion II follows
- 5. If both conclusions I and II follow.

Answer: If both conclusions I and II follow.

Direction:

In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer -

• Question No. 89

Statements: $R > E < W > P = Y \ge V > C \ge N$

Conclusion:

I. E > V

II. R ≥ P

Options:

- 1. If only conclusion I follows
- 2. If only conclusion II follows
- 3. If either conclusion I or conclusion II follows
- 4. If neither conclusion I nor conclusion II follows
- 5. If both conclusions I and II follow.

Answer: If neither conclusion I nor conclusion II follows

Direction:

In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer -

• Question No. 90 repare Vo Faster

Statements: $T > R \ge W = E \le N > C = D \le M$

Conclusion:

I. M ≤ R

II. M > R

Options:

- 1. If only conclusion I follows
- 2. If only conclusion II follows
- 3. If either conclusion I or conclusion II follows
- 4. If neither conclusion I nor conclusion II follows

5. If both conclusions I and II follow.

Answer: If either conclusion I or conclusion II follows

Direction:

In these questions, relationships between different elements are shown in the statements. These statements are followed by two conclusions. Give answer -

• Question No. 91

Statements: $R < U = O \le Q = H > T > W \ge E$

Conclusion:

I. Q > E

II. Q ≥ E

Options:

- 1. If only conclusion I follows
- 2. If only conclusion II follows
- 3. If either conclusion I or conclusion II follows
- 4. If neither conclusion I nor conclusion II follows
- 5. If both conclusions I and II follow.

Answer : If only conclusion I follows

• Question No. 92

How many pairs of letters are there in the word "SEMINAR" which have as many letters between them is the word as in English alphabetical series?

Options:

- 1. Three
- 2. One
- 3. Two
- 4. More than three

5. None

Answer: One

Direction:

In each of the questions below. Some statements are given followed by conclusions/group of conclusions. You have to assume all the statements to be true even if they seem to be at variance from the commonly known facts and then decide which of the given conclusions logically follow from the information given in the statements:

• Question No. 93

Statement: Only paper is glue.

Some paper is wood.

No wood is carpet.

I. Some wood can be glue.

II. Some paper is not carpet.

Options: Prepare 50% Faster

- 1. If only conclusion I follows
- 2. If only conclusion II follows
- 3. If either I or II follows
- 4. If neither I nor II follows
- 5. If both I and II follows

Answer: If only conclusion II follows

Direction:

In each of the questions below. Some statements are given followed by conclusions/group of conclusions. You have to assume all the statements to be true even if they seem to be at variance from the commonly known facts and then decide which of the given conclusions logically follow from the information given in the statements:

•	Question No. 94
	Statement:
	All student is union.
	Only a few union is class.
	Only Some class is large.
	Conclusions:
	I. All union can be class.
	II. Some student is not large.
	Options: 1. If only conclusion I follows 2. If only conclusion II follows 3. If either I or II follows 4. If neither I nor II follows 5. If both I and II follows Answer: If neither I nor II follows
	Direction:
	In each of the questions below. Some statements are given followed by conclusions/group of conclusions. You
	have to assume all the statements to be true even if they seem to be at variance from the commonly known facts and then decide which of the given conclusions logically follow from the information given in the statements:
•	Question No. 95
	Statement:
	Only a few margin is line.
	Only a few line is straight.

Some straigl	nt is column.
--------------	---------------

Conclusions:

- I. All column can be line.
- II. Some margin is not line

Options:

- 1. If only conclusion I follows
- 2. If only conclusion II follows
- 3. If either I or II follows
- 4. If neither I nor II follows
- 5. If both I and II follows

Answer: If both I and II follows

Direction:

The following questions are based on the six three digits numbers given below:

563 218 732 491 929

• Question No. 96 Paster

If 2 is subtracted from the second digit of all odd numbers and 2 is added in the first digit of all even numbers, then which number is lowest number after the arrangement?

Options:

- 1. 218
- 2.732
- 3. 491
- 4.929
- 5. None of these

Answer: 218

Direction:

The following questions are based on the six three digits numbers given below:

563 218 732 491 929

• Question No. 97

If third digit of highest number is divided by the first digit of lowest number, then what will be the resultant?

Options:

- 1.4
- 2.6
- 3. 4.5
- 4. 5
- 5. None of these

Answer: 4.5

Direction:

The following questions are based on the six three digits numbers given below:

563 218 732 491 929

• Question No. 98

If all the digits in each number are arranged in increasing order, then which number will be the highest number after the rearrangement?

Options:

- 1. 218
- 2.732
- 3. 491
- 4. 563
- 5. None of these

Answer: 563

Direction:

The following questions are based on the six three digits numbers given below:

563 218 732 491 929

• Question No. 99

How many numbers will be there in the given series in which addition of first and third digit is greater than second digit?

Options:

1.1

2.2

3. 3

4.4

5. None of these

Answer : 4

Direction:

The following questions are based on the six three digits numbers given below:

563 218 732 491 929 are 50 Faster

• Question No. 100

How many numbers will be there in the given series in which difference of first and third digit is greater than second digit?

Options:

1.1

2. 2

3.3

4. 4

5. None of these

Answer: 2
