**Read the following passage carefully and answer the questions given below it. Certain words/ Phrases have been printed in bold to help you locate them while answering some of the questions.**

Ganga is the living symbol of the faith of Indianness. The Ganges is the largest river in India with extraordinary religious significance. The river provides water to 40 per cent of India's population in 11 states of India. In other words, Ganga is the lifeline of India. The holy Ganges, which **descended** from Gangotri, is becoming muddy day by day. Today it is considered the sixth most polluted river in the world. According to the World Bank report, the polluted Ganges water is the cause of 12 per cent of diseases in Uttar Pradesh. It is a matter of **grave** concern that Ganga water is neither drinkable nor is it suitable for bathing nor irrigation. Scientists believe that the Ganges water contains a bacterium called bacteriophage, which kills bacteria and other harmful micro-organisms. But due to pollution, the number of these beneficial viruses has also decreased significantly. Apart from this, turtles, fish and other aquatic animals playing an active role in making Ganga clean are on the verge of **annihilation**. According to

the 2018 report of the Central Pollution Control Board, there are 151 streams where about 10 lakh litres of water flows daily and these drains meet in the Ganges, from which about 10,500 million litres per day (MLD) of polluted water reaches the Ganges every day. The amount of BOD (biochemical oxygen demand) in this polluted water ranges from 350 to 430 tons per day (TPD), which is equivalent to the defecation of more than one crore people. According to a United Nations estimate, 80 per cent of the contaminated water is being dumped in the two main tributaries of the Ganges River. A campaign to clean the holy river was started in 1986, it is called the first phase of the Ganga Action Plan. Under this, the government made several efforts. After this, Yamuna Action Plan-I, Ganga Action Plan-2 and Gomti Action Plan were launched, but none got good results. Later, the Narendra Modi government has launched the Namami Gange scheme. This scheme was started by the government in 2015 and a provision of 20 thousand crores was made for it. Namami Gange projects to be completed by 2022. This target was earlier set for 2019.

• Question No. 6

'Ganga is the lifeline of India'. Which of the following justify this statement ?

**Options :**

1. Ganga is considered holy in India
2. It is the second largest river of India
3. It provides water to 40% population in 11 states of India.
4. Both B & C
5. All of these

Answer : It provides water to 40% population in 11 states of India.

**appropriate words.**

The Centre’s push to resolve the problem of bad loans through an ordinance is likely to .....(26) the banks’ provisioning costs in the short-term as they will need to take significant haircuts or write-offs on their non-performing assets, according to Fitch Ratings.

Further losses due to higher provisioning for bad loans could .....(27) weaker banks closer to a breach of their capital requirements and even force mergers .....(28) they receive ‘pre-emptive capital injections,’ the agency said in a report.

While Fitch said that the greater powers assigned to the central bank to .....(29) in banks at ‘an earlier stage when risks build’ is an important step towards a healthy banking system in the future, the move also makes it more likely that the number of state banks will fall in the medium-term.

Further losses at some of the weakest small-to medium-sized state banks could pressure them to shrink, or to .....(30) exit the system by entering into forced mergers.

• Question No. 27

27.

1) encourage

2) promote

3) nurture

4) disrupt

5) None of these

**Options :**

1. 1)

2. 2)

3. 3)

4. 4)

5. 5)

Answer : 4)

Direction:

**(Q.26-30): In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each five words are suggested, one of which fits the blank appropriately. Find out the appropriate words.**

4. Praveen
5. Naveen

Answer : Deepak

- Question No. 46

If cost price of 20 articles is equal to selling price of x articles & profit % is 25, find the value of x?

Options :

1. 10
2. 15
3. 16
4. 20
5. None of these

Answer : 16

- Question No. 47

4 men and 6 women together or 8 men can complete a piece of work in 20 days. 6 men and 6 women will complete the same work in

**Options :**

1. 16 days
2. 14 days
3. 18 days
4. 12 days
5. None of these

Answer : 16 days

- Question No. 48

A solid metal cylinder having a radius of 7cm and height of 21 cm is melted down and recast as a cone having radius of 3.5 cm. Find the height of the cone.

**Options :**

1. 226cm
2. 252cm
3. 264cm
4. 272cm
5. None of these

Answer : 252cm

- Question No. 49

Reyansh and Sahil started business investing Rs. 14000 and Rs.18000 respectively. What is Sahil's share out of a total profit of Rs. 96000?

**Options :**

1. 38000
2. 54000

- 3. 28000
- 4. 42000
- 5. None of these

Answer : 54000

• Question No. 50

If a man sells two articles at same selling price , if first is sold at 10% profit & second is sold at 10% loss then what is the net profit or loss%?

**Options :**

- 1. 1% profit
- 2. 1% loss
- 3. no profit, no loss
- 4. loss 2%
- 5. None of these

Answer : 1% loss

Direction:

What will come in place of question mark (?) in the following question?

• Question No. 51

40% of 4000 + 20% of 420 = x% of 8420

**Options :**

- 1. 40

• Question No. 60

Which of the following teams have accepted minimum number of goals in the whole tournament?

Options :

1. Chelsea
2. Man United
3. Liverpool
4. Tottenham
5. Arsenal

Answer : Tottenham

• Question No. 61

The sum of present ages of Ria and Anju is 52 years. Today Anju is 4 years older than Shweta. The respective ratio of the present ages of Ria and Shweta is 1 : 1. What was Anju's age 2 years ago?

Options :

1. 31 years
2. 36.5 years

- 3. 20 years
- 4. 26 years
- 5. 18 years

Answer : 26 years

• Question No. 62

Rs.1581 is divided among A, B and C in the ratio 10 : 15 : 6. What is the share of B?

**Options :**

- 1. 306
- 2. 765
- 3. 750
- 4. 600
- 5. None of these

Answer : 765

• Question No. 63

Ram, Ankit and Shivam together can do a piece of work in  $10\frac{2}{3}$  days. Ram could do it alone in 6 days and Ankit could do it alone in 12 days. In how many days could Shivam do it alone?

**Options :**

- 1. 10 days
- 2. 20 days
- 3. 15 days
- 4. 25 days
- 5. None of these

Answer : 20 days

• Question No. 64

Two buses start from a bus terminal with a speed of 40 km/h at interval of 20 minutes. Find the speed of a man coming from the opposite direction towards the bus terminal if he meets the buses at interval of 16 minutes.

**Options :**

1. 15 km/hr
2. 16 km/hr
3. 10 km/hr
4. 12 km/hr
5. None of these

Answer : 10 km/hr

- Question No. 65

If the base and height of a triangle are in the ratio of 2:5 and area is  $125 \text{ cm}^2$ . Find its base and height.

**Options :**

1. 12 cm and 25 cm.
2. 10 cm and 50 cm.
3. 10 cm and 25 cm.
4. 20 cm and 25 cm.
5. None of these

Answer : 10 cm and 25 cm.

Answer : Q

Direction:

**Read the following information carefully and answer the questions given below.**

Eight persons are sitting in two parallel rows containing four persons in each in such a way that there is an equal distance between adjacent persons. In row-1, A, B, C and D are seated and all of them are facing north and each of them likes different subjects viz., Physics, Maths, Hindi and English but not necessary in the same order. In row-2, Q, R, S and T are seated and all of them are facing south and each of them likes different subjects viz., Chemistry, Biology, History and Civics but not necessary in the same order. Each person seated in a row faces another person of the other row.

(i) B sits second to the left of the one who likes English. R sits to the immediate right of the one who likes History.

(ii) A sits to the immediate left of the one who likes Hindi. The one who likes Chemistry faces B. Q faces the one who likes Maths but does not sit at either extreme ends of the row.

(iii) C faces the one who likes Biology. The one who likes Biology sits second to the right of T.

• Question No. 71

Who sits between A and the one who likes Physics?

Options :

1. B
2. C
3. D
4. Cannot be determined
5. The one who likes Hindi

Answer : C

Direction:

**Read the following information carefully and answer the questions given below.**

Eight persons are sitting in two parallel rows containing four persons in each in such a way that there is an equal distance between adjacent persons. In row-1, A, B, C and D are seated and all of them are facing north and each of them likes different subjects viz., Physics, Maths, Hindi and English but not necessary in the same order. In row-2, Q, R, S and T are seated and all of them are facing south and each of them likes different subjects viz., Chemistry, Biology, History and Civics but not necessary in the same order. Each person seated in a row faces another person of the other row.

- (i) B sits second to the left of the one who likes English. R sits to the immediate right of the one who likes History.
- (ii) A sits to the immediate left of the one who likes Hindi. The one who likes Chemistry faces B. Q faces the one who likes Maths but does not sit at either extreme ends of the row.
- (iii) C faces the one who likes Biology. The one who likes Biology sits second to the right of T.

• Question No. 72

Who among the following sit at extreme ends of the row?

**Options :**

1. R and the one who likes Chemistry
2. S and the one who likes Civics
3. T and the one who likes Biology
4. D and the one who likes Physics
5. None of these

Answer : D and the one who likes Physics

Direction:
