Directions: In each of the following sentences, a sentence is divided into 4 parts (A), (B), (C) and (D). Find out the error in these parts if any. If all the parts are correct, mark (E) as your answer.

• Question No. 1

The amendment provides that (A)/an electoral registration officer may require (B)/an individual to furnish their Aadhaar number (C)/in order to establish its identity (D).

Options :

1. The amendment provides that
2. an electoral registration officer may require
3. an individual to furnish their Aadhaar number
4. in order to establish its identity
5. No error

Answer : in order to establish its identity

Direction:

Directions: In each of the following sentences, a sentence is divided into 4 parts (A), (B), (C) and (D). Find out the error in these parts if any. If all the parts are correct, mark (E) as your answer.

• Question No. 2

In the long run, we face the (A)/disturbing prospect of the police becoming (B)/gatekeepers over what content reaches (C)/the public domain and what do not (D).

Options :

1. In the long run, we face the
2. disturbing prospect of the police becoming
3. gatekeepers over what content reaches
4. the public domain and what do not
5. No error

Answer : the public domain and what do not

Direction:

Directions: In each of the following sentences, a sentence is divided into 4 parts (A), (B), (C) and (D). Find out the error in these parts if any. If all the parts are correct, mark (E) as your answer.

• Question No. 3

Surveys and anecdotal evidence (A)/of higher attendance on (B)/‘egg days’ point to the (C)/ popular of the scheme among the beneficiaries (D).

Options :

1. Surveys and anecdotal evidence
2. of higher attendance on
3. ‘egg days’ point to the
4. popular of the scheme among the beneficiaries
5. No error

Answer : popular of the scheme among the beneficiaries

Direction:

Directions: In each of the following sentences, a sentence is divided into 4 parts (A), (B), (C) and (D). Find out the error in these parts if any. If all the parts are correct, mark (E) as your answer.

• Question No. 4

But in reality, each passing day (A)/has only brought a stream (B)/of bad news for (C)/women and girls on Afghanistan (D).

Options :

1. But in reality, each passing day
2. has only brought a stream
3. of bad news for
4. women and girls on Afghanistan
5. No error

Answer : women and girls on Afghanistan

Direction:

Directions: In each of the following sentences, a sentence is divided into 4 parts (A), (B), (C) and (D). Find out the error in these parts if any. If all the parts are correct, mark (E) as your answer.

• Question No. 5

Nazi war criminals accused with (A)/participating in the Holocaust continue (B)/to stand trial and any attempt (C)/of denial is met with punishment (D).

Options :

1. Nazi war criminals accused with
2. participating in the Holocaust continue
3. to stand trial and any attempt
4. of denial is met with punishment
5. No error

Answer : Nazi war criminals accused with

Direction:

The given question has a statement with two highlighted words/ phrases. Choose the most appropriate option from the given alternatives which can help replace the highlighted words to make the statement grammatically and logically correct. If the given sentence is correct as it is, mark 'no correction required' as the answer.

• Question No. 6

A statement **assured** by the office of Health Minister said that talks would be **propagate** with the postgraduate medicos on Tuesday.

Options :

1. insure, appropriated
2. issued, held
3. assumed, helped
4. include, conducted
5. No improvement required

Answer : issued, held

Direction:

The given question has a statement with two highlighted words/ phrases. Choose the most appropriate option from the given alternatives which can help replace the highlighted words to make the statement grammatically and logically correct. If the given sentence is correct as it is, mark 'no correction required' as the answer.

• Question No. 7

The farmers are worried that season may be a **walkout** like last year with the pandemic yet to be **continued**.

Options :

1. washout, contained
2. walk in, constrained
3. walkover, contaminated
4. wash off, constitute
5. No improvement required

Answer : washout, contained

Direction:

The given question has a statement with two highlighted words/ phrases. Choose the most appropriate option from the given alternatives which can help replace the highlighted words to make the statement grammatically and logically correct. If the given sentence is correct as it is, mark 'no correction required' as the answer.

• Question No. 8

The prosecution will strongly **offering** the withdrawal petition as there are enough **gains** and materials on record for objecting the petition.

Options :

1. observes, greetings
2. obsolete, grief
3. oppose, grounds
4. obtain, gross
5. No improvement required

Answer : oppose, grounds

Direction:

The given question has a statement with two highlighted words/ phrases. Choose the most appropriate option from the given alternatives which can help replace the highlighted words to make the statement grammatically and logically correct. If the given sentence is correct as it is, mark 'no correction required' as the answer.

• Question No. 9

Lack of **efface** legal representation at police stations is a huge **detrimental** to arrested or detained persons.

Options :

1. effective, detriment
2. effort, determination
3. effortless, determine
4. effect, destruction
5. No improvement required

Answer : effective, detriment

Direction:

The given question has a statement with two highlighted words/ phrases. Choose the most appropriate option from the given alternatives which can help replace the highlighted words to make the statement grammatically and logically correct. If the given sentence is correct as it is, mark 'no correction required' as the answer.

• Question No. 10

The medical fraternity **servd** the decision and many doctors **says** that it was a right move by the district administration.

Options :

1. conclusion, agree
2. welcomed, opined
3. constrained, appreciates
4. achieve, conclude
5. No improvement required

Answer : welcomed, opined

Direction:

Fill in the blanks with the most appropriate word given in the options against the correct blank number.

In yet another move to close the regulatory gap between banks and shadow banks, the Reserve Bank of India (RBI) has _____ (1) exposure limits to the non-banking finance companies, in line with commercial banks. In the

large exposure framework released on Tuesday, the regulator _____ (2) aggregate exposure of NBFCs which are in the upper layer toward one entity at 20% of capital base. The limit can only be _____ (3) by another 5% with board's _____ (4). For a particular borrower group, the cap is at 25%, with additional 10% if exposure is towards infrastructure. However, NBFCs which are into infrastructure finance can have exposure of 25 per cent, with an option of additional 5 per cent of Tier I capital to a single counterparty. In case of _____ (5) of the large exposure limits, the NBFCs have to report to the department of supervision of RBI. Consequently, it will be _____ (6) to undertake any further exposure (at the entity or group level) until it is down within the limit.

• Question No. 11

Choose the appropriate word for blank 1.

Options :

1. recurred
2. mandated
3. promise
4. excavated
5. fortified

Answer : mandated

Direction:

Fill in the blanks with the most appropriate word given in the options against the correct blank number.

Read the passage and answer the questions that follow.

The world is shaken by compounding crises. The fallout of the war in Ukraine is adding to the ongoing COVID-19 pandemic that now enters its third year, while climate change and increased fragility and conflict pose persistent harm to people around the globe. Sharply higher prices for staples and supply shortages are increasing pressure on households worldwide and pushing millions more into poverty. The threat is highest for the poorest countries as they have a large share of consumption from food imports, but vulnerability is increasing rapidly in middle-income countries, which host the majority of the world's poor. The international community has to urgently support vulnerable countries through coordinated actions ranging from provision of emergency food supplies, financial support, increased agricultural production, and open trade. They have to combine their expertise and financing to quickly step up their policy and financial support to help vulnerable countries and households as well as to increase domestic agricultural production in, and supply to, impacted countries. It is critical to quickly provide support for food insecure countries in a coordinated manner.

The World Bank has estimated that the Ukrainian economy will decline by 45% or more because of the war. Effects in other countries are a combination of the war's effects on prices of a number of agricultural and non-agricultural goods where Russia, Ukraine and/or Belarus are important global suppliers, supply chain disruptions that have continued from the pandemic and other inflationary pressures. Even as the impact of the pandemic on growth is subsiding, partly because of increases in vaccination rates, the economic scars left behind after two years of the pandemic are deep. Inflation and deficits in trade balances reflect supply bottlenecks, pent-up demand, and rising commodity prices in international markets. Support measures and reduced revenues have deteriorated fiscal balances. All these problems have become more pressing because of the immediate impact of the war in Ukraine, which has **pushed** up prices of oil and other commodities in international markets.

The crisis in Ukraine has created a humanitarian crisis of immense proportions and has also dealt a severe blow to the global economy. Poorer countries are at high risk from the war, since they tend to spend a larger fraction of their incomes on food compared to richer countries. This could impact political stability. From a macroeconomic perspective, higher prices for food and energy will reduce real incomes and depress global import demand. Sanctions will impose economic costs on not only Russia directly but also on its trading partners. Sanctions are already having a strong impact on Russia's economy, with possible medium to long-term consequences. Disconnecting Russian banks from the SWIFT settlement system and blocking Russia's use of foreign exchange reserves have triggered a sharp depreciation of the rouble, reducing real incomes in the country. Many international

firms are also **retreating** from the Russian market. Oil and gas exports have yet to be strongly affected by the sanctions, but the crisis could accelerate the global transition towards greener energy sources.

The WTO has an important role to play in mitigating the negative effects of the crisis and in rebuilding a post-war global economy. Keeping markets open will be critical to ensure that economic opportunities remain open to all countries. This will be especially true in the post-war period, when businesses and families will need to repair their balance sheets and rebuild their lives. Through its importance for international trade and its monitoring, convening and other functions, the WTO is central to ensuring that international trade continues to serve billions of people across the world. Already prior to the war in Ukraine, international food prices had reached an all-time high. This was mostly due to market conditions, but also high prices of energy, fertilizers and all other agricultural services.

• Question No. 22

Why the poorest countries suffer the most because of the compounding crises that is mentioned in the passage?

Options :

1. They are the victims of climate change, hence they are affected badly.
2. Their exports are badly affected and there is a steep fall in the value of their currencies.
3. They suffer because rich countries exploit them for raw materials during these crises.
4. They are mostly consumers, and their food imports will badly be affected.
5. All are correct

Answer : They are mostly consumers, and their food imports will badly be affected.

Direction:

Read the passage and answer the questions that follow.

The world is shaken by compounding crises. The fallout of the war in Ukraine is adding to the ongoing COVID-19 pandemic that now enters its third year, while climate change and increased fragility and conflict pose persistent harm to people around the globe. Sharply higher prices for staples and supply shortages are increasing pressure on households worldwide and pushing millions more into poverty. This will be especially true in the post-war period, when businesses and families will need to repair their balance sheets and rebuild their lives. Through its importance for international trade and its monitoring, convening and other functions, the WTO is central to ensuring that international trade continues to serve billions of people across the world. Already prior to the war in Ukraine, international food prices had reached an all-time high. This was mostly due to market conditions, but also high prices of energy, fertilizers and all other agricultural services.

• Question No. 25

Why is there a sharp fall in the value of the rouble?

Options :

1. Russia has used up its foreign exchange reserve for the war.
2. The exports reduced sharply because of decrease in production, which led to the fall of the rouble
3. The disciplinary actions taken against Russia led to the decrease in the value of the rouble.
4. The USA taking advantage of Russia's situation led to the fall of the rouble.
5. The failure to source raw materials from Ukraine for production led to the decline of the rouble.

Answer : The disciplinary actions taken against Russia led to the decrease in the value of the rouble.

Direction:

Read the passage and answer the questions that follow.

The world is shaken by compounding crises. The fallout of the war in Ukraine is adding to the ongoing COVID-19 pandemic that now enters its third year, while climate change and increased fragility and conflict pose persistent harm to people around the globe. Sharply higher prices for staples and supply shortages are increasing pressure on households worldwide and pushing millions more into poverty. The threat is highest for the poorest countries as they have a large share of consumption from food imports, but vulnerability is increasing rapidly in middle-income countries, which host the majority of the world's poor. The international community has to urgently support vulnerable countries through coordinated actions ranging from provision of emergency food supplies, financial support, increased agricultural production, and open trade. They have to combine their expertise and financing to quickly step up their policy and financial support to help vulnerable countries and households as well as to increase domestic agricultural production in, and supply to, impacted countries. It is critical to quickly provide support for food insecure countries in a coordinated manner.

The World Bank has estimated that the Ukrainian economy will decline by 45% or more because of the war. Effects in other countries are a combination of the war's effects on prices of a number of agricultural and non-agricultural goods where Russia, Ukraine and/or Belarus are important global suppliers, supply chain disruptions that have continued from the pandemic and other inflationary pressures. Even as the impact of the pandemic on growth is subsiding, partly because of increases in vaccination rates, the economic scars left behind after two years of the pandemic are deep. Inflation and deficits in trade balances reflect supply bottlenecks, pent-up demand, and rising commodity prices in international markets. Support measures and reduced revenues have deteriorated fiscal balances. All these problems have become more pressing because of the immediate impact of the war in Ukraine, which has **pushed** up prices of oil and other commodities in international markets.

The crisis in Ukraine has created a humanitarian crisis of immense proportions and has also dealt a severe blow to the global economy. Poorer countries are at high risk from the war, since they tend to spend a larger fraction of their incomes on food compared to richer countries. This could impact political stability. From a macroeconomic perspective, higher prices for food and energy will reduce real incomes and depress global import demand. Sanctions will impose economic costs on not only Russia directly but also on its trading partners. Sanctions are already having a strong impact on Russia's economy, with possible medium to long-term consequences. Disconnecting Russian banks from the SWIFT settlement system and blocking Russia's use of foreign exchange reserves have triggered a sharp depreciation of the rouble, reducing real incomes in the country. Many international firms are also **retreating** from the Russian market. Oil and gas exports have yet to be strongly affected by the sanctions, but the crisis could accelerate the global transition towards greener energy sources.

The WTO has an important role to play in mitigating the negative effects of the crisis and in rebuilding a post-war global economy. Keeping markets open will be critical to ensure that economic opportunities remain open to all countries. This will be especially true in the post-war period, when businesses and families will need to repair their balance sheets and rebuild their lives. Through its importance for international trade and its monitoring, convening and other functions, the WTO is central to ensuring that international trade continues to serve billions of people across the world. Already prior to the war in Ukraine, international food prices had reached an all-time high. This was mostly due to market conditions, but also high prices of energy, fertilizers and all other agricultural services.

• Question No. 26

The actions taken by the international organisations against Russia did not have any impact on oil and gas exports, it will surely delay the global transition to renewable energy sources.

According to the passage, this statement is-

Options :

1. Definitely true
2. Definitely false
3. Probably true
4. Probably false
5. Cannot be determined

Answer : Definitely false

Direction:

• Question No. 30

Which of the following is the antonym of the word 'pushed'?

Options :

1. drop
2. increase
3. give
4. encourage
5. packed

Answer : drop

• Question No. 31

A and B started a business investing Rs. 2000 for 'x' months and Rs. 2500 for 8 months, respectively. Out of total profit of Rs. 5000, profit share of B is Rs. 2500. Find the value of x.

Options :

1. 8 months
2. 10 months
3. 7 months
4. 3 months
5. None of these

Answer : 10 months

• Question No. 32

Ajay spent 30% of his monthly income on rent and 46% of the remaining on food and the rest amount is saved by him which is Rs. 3213, then find the monthly income of Vikram if ratio of monthly of Vikram and Ajay is 20:17, respectively.

Options :

1. Rs. 8500
2. Rs. 6500
3. Rs. 5250
4. Rs. 11875
5. Rs. 10000

Answer : Rs. 10000

• Question No. 33

'A', 'B' and 'C' started a business by investing Rs. 2500, Rs. 4500 and Rs. 3500, respectively. After 4 months, 'B' left and 'A' and 'C' added Rs. 1000 each to their respective initial investment. Find the ratio of annual profit received by 'A', 'B' and 'C'.

Options :

1. 19:6:7
2. 11:5:7
3. 19:5:7
4. 10:7:7
5. 19:9:25

Answer : 19:9:25

• Question No. 34

Speed of a car and a bus is 20 km/h and 10 km/h, respectively. If the time taken by the car to cover a distance of '9x' km is 4 hour less than time taken by the bus to cover a distance of '5x' km, then find the value of '9x'

Options :

1. 700
2. 730
3. 750
4. 720
5. None of these

Answer : 720

• Question No. 35

The ratio of present age of A to that of B is 3:2 and the ratio of present age of A to that of C is 3:4. The average present age of A, B and C is 15 years. Find the age of B, after 7 years.

Options :

1. 15 years
2. 12 years
3. 24 years
4. 17 years
5. 20 years

Answer : 17 years

3. 24 days

4. 42 days

5. 21 days

Answer : 30 days

• Question No. 48

A plot has to be divided among P, Q and R in the ratio 4:6:9 respectively. If the area of plot received by R is 5100m^2 more than the area of plot received by Q, then find the total area of plot received by P and Q.

Options :

1. 16800m^2
2. 12000m^2
3. 17000m^2
4. 11200m^2
5. 9800m^2

Answer : 17000m^2

- Question No. 49

Akshay invested Rs. 1050 in two schemes P and Q in the respective ratio of 5:2. Scheme P and Q are offering simple interest at the rate of 8% per annum and 10% per annum, respectively. Find the interest obtained after 2 years from scheme P.

Options :

1. Rs. 120
2. Rs. 168
3. Rs. 252
4. Rs. 216
5. Rs. 192

Answer : Rs. 120

- Question No. 50

A shopkeeper sold an article at a discount of 16%. If he had given a discount of 7.5% in place of 16%, then he would have earned Rs. 204 more. If the cost price of the article is 25% less than its marked price, then find the cost price of the article.

Options :

1. Rs. 2,025
2. Rs. 1,650
3. Rs. 2,080
4. Rs. 1,800
5. Rs. 1,600

Answer : Rs. 1,800

Direction:

In the following questions, two equations numbered I and II are given. You have to solve both the equations and give answer.

- Question No. 51

I. $35x^2 - 24x - 35 = 0$

II. $12y^2 - y - 6 = 0$

Options :

1. if $x > y$
2. if $x \geq y$
3. if $x < y$
4. if $x \leq y$
5. if $x = y$ or the relationship cannot be established

Answer : if $x = y$ or the relationship cannot be established

Direction:

In the following questions, two equations numbered I and II are given. You have to solve both the equations and give answer.

- Question No. 52

I. $6y^2 + 43y + 72 = 0$

II. $6x^2 + 31x + 40 = 0$

Options :

1. if $x > y$
2. if $x \geq y$
3. if $x < y$
4. if $x \leq y$
5. if $x = y$ or the relationship cannot be established

Answer : if $x \geq y$

Direction:

In the following questions, two equations numbered I and II are given. You have to solve both the equations and give answer.

- Question No. 53

I. $2y^2 + 11y + 15 = 0$

II. $3x^2 + 4x - 4 = 0$

Options :

1. If $x \geq y$
2. If $x \leq y$
3. If $x < y$
4. If $x > y$
5. If relationship between a and b cannot be established or $x = y$

Answer : If $x > y$

Direction:

In the following questions, two equations numbered I and II are given. You have to solve both the equations and give answer.

- Question No. 54

I. $2x^2 - 12x - 144 = 0$

II. $2y^2 + y - 15 = 0$

Options :

1. if $x < y$
2. if $x > y$
3. if $x \geq y$
4. if $x \leq y$
5. if $x = y$ or the relationship cannot be established.

Answer : if $x = y$ or the relationship cannot be established.

Direction:

In the following questions, two equations numbered I and II are given. You have to solve both the equations and give answer.

- Question No. 55

I. $4x^2 + 4x - 24 = 0$

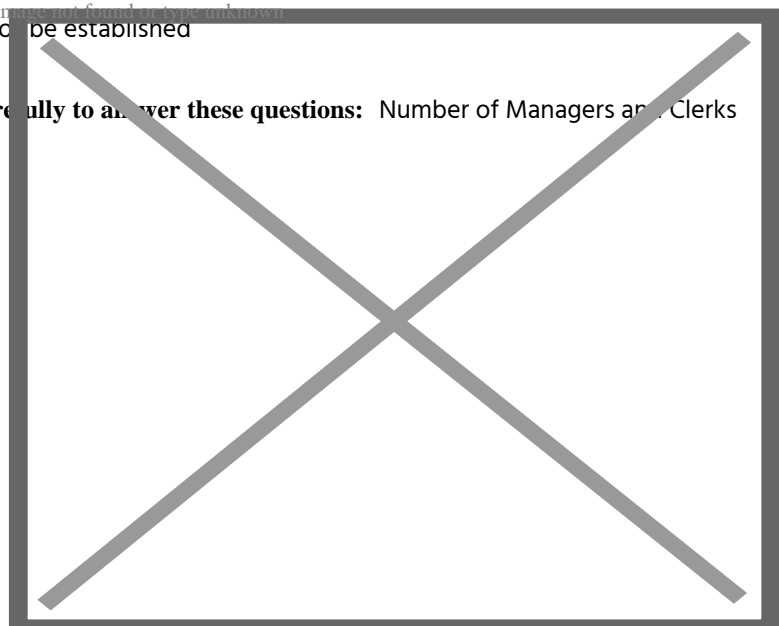

II. $3y^2 - 6y - 45 = 0$

Options :

1. if $x < y$
2. if $x > y$
3. if $x \leq y$
4. if $x \geq y$
5. if $x = y$ or the relationship cannot be established

Answer : if $x = y$ or the relationship cannot be established

Direction: **Study the following graph carefully to answer these questions:** Number of Managers and Clerks

appointed by a Company in six years.

• Question No. 56

What is the approximate difference between percent increase/ decrease in the appointment of Managers and clerks from the year 2010 to 2011?

Options :

1. 9%
2. 14%
3. 18%
4. 25%
5. None of these

Answer : 18%

Direction:

Study the following graph carefully to answer these questions:

Number of Managers and Clerks appointed by a Company in six years.

• Question No. 57

What was the approximate average number of managers in all the years together?

Options :

1. 331
2. 341
3. 311
4. 321
5. None of these

Answer : 321

Direction:

Study the following graph carefully to answer these questions:

Number of Managers and Clerks appointed by a Company in six years.

- Question No. 58

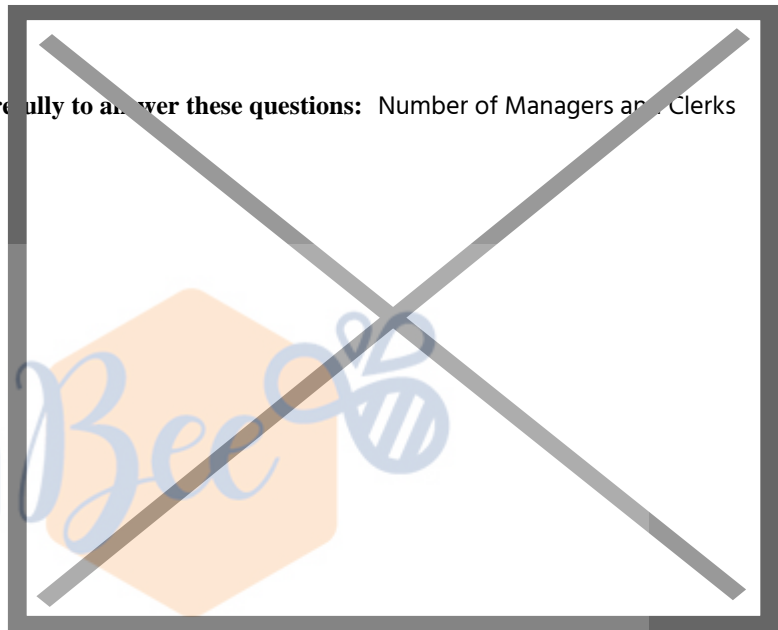

What was the ratio of the number of appointed managers in 2013 to the appointed clerks in 2011 ?

Options :

1. 8:3
2. 5:2
3. 7:3
4. 4:1
5. None of these

Answer : 8:3

Direction: Study the following graph carefully to answer these questions: Number of Managers and Clerks

appointed by a Company in six years.

Prepare 50% Faster

- Question No. 59

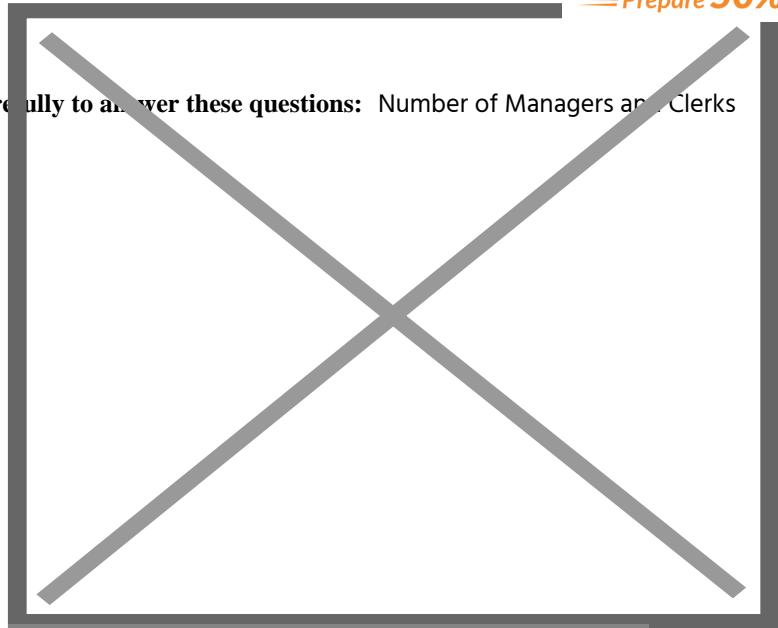

The number of appointed clerks in the year 2010 was approximately what percent of the number of appointed managers in the same year?

Options :

1. 57%
2. 39%
3. 75%
4. 61%
5. 44%

Answer : 57%

Direction: Study the following graph carefully to answer these questions: Number of Managers and Clerks

appointed by a Company in six years.

- Question No. 60

What is the approximate difference between the average of number of managers & the average of number of clerks appointed in all the years together?

Options :

1. 69

2. 75

3. 86

4. 96

5. 102

Answer : 96

Direction:

Answer the questions based on the information given below.

The given table shows the runs scored by four cricketers in domestic tournaments in three different years i.e. in 2015, 2016 and 2017.

Players	Runs scored in 2015	Runs scored in 2016	Runs scored in 2017
A	$(x + 240)$	$(x - 180)$	$(1.5x \div 8)$
B	$(2x - 180)$	$(2.5x + 120)$	$(x + 200)$
C	$(1.5x + 240)$	$4x$	$(1.5x - 120)$
D	$2.5x$	$(3x - 320)$	$5x$

- Question No. 61

If the run scored by player A in 2015 is 20% more than number of runs scored by player C in 2017, then find the ratio of runs scored by players C and D in 2015, together to the runs scored by player C in 2016.

Options :

1. 5:8
2. 9:7
3. 9:8
4. 9:11
5. 8:9

Answer : 9:8

Direction:

Answer the questions based on the information given below.

The given table shows the runs scored by four cricketers in domestic tournaments in three different years i.e. in 2015, 2016 and 2017.

Players	Runs scored in 2015	Runs scored in 2016	Runs scored in 2017
A	$(x + 240)$	$(x - 180)$	$(1.5x \div 8)$
B	$(2x - 180)$	$(2.5x + 120)$	$(x + 200)$
C	$(1.5x + 240)$	$4x$	$(1.5x - 120)$
D	$2.5x$	$(3x - 320)$	$5x$

- Question No. 62

If the average runs scored by players A, B and C in 2017 is 385, then find the difference between the runs scored by players A and B, together in 2016 and runs scored by player B in 2015.

Options :

1. 700
2. 730
3. 740
4. 750
5. 720

Answer : 720

Direction:

Study the following information carefully and answer the question given below:

Eight friends Amitesh, Arjun, Aliya, Amod, Ashok, Ashwani, Aditya and Aniket have their wedding anniversary in the different months of the year viz. May, July, September and November but not necessarily in the same order. They have anniversary on either 12 or 27 of the month. No two persons have the same anniversary date. Amitesh's anniversary is in the month which has 30 days but not on an odd numbered date. Only three persons have their

anniversary between Amitesh's and Arjuns'. Arjun's anniversary is on an even numbered date. Ashok and Amod have their anniversary in one particular month that has 31 days. Amod does not have his anniversary before Ashok's. Besides, both of them did not have their anniversary in the month of May. Only one person has his anniversary between Ashwani and Aniket. Aliya does not have his anniversary on an even numbered date. Aniket has his anniversary just after Aditya's

- Question No. 66

Whose anniversary is on 27th of July?

Options :

1. Amod
2. Ashwani
3. Arjun
4. Amitesh
5. None of these

Answer : Amod

Direction:

1. L
2. S
3. Q
4. K
5. None of these

Answer : K

Direction:

Study the following information carefully to answer the given questions.

Eight persons who belongs to different cities viz. Bokaro, Ludhiana, Pune, Varanasi, Mumbai, Jaipur, Lucknow and Agra they were sitting in two parallel rows containing four people each, in such a way that there is an equal distance between adjacent persons. In row 1: J, K, L and M are seated not necessarily in the same order and all of them were facing south. In row 2: P, Q, R and S are seated not necessarily in the same order and all of them were facing north. Therefore, in the given seating arrangements each member seated in a row faces another member of the other row.

(i) L sits second to right of the person who belongs to Agra. R is an immediate neighbour of the person who faces the person who belongs to Agra. Only one person sits between R and the person who belongs to Varanasi.

(ii) K faces the person who belongs to Lucknow. The person who belongs to Ludhiana is on the immediate left of Q. Immediate neighbour of the person who belongs to Varanasi faces the person who belongs to Pune.

(iii) The person who belongs to Bokaro faces the person who belongs to Jaipur. R does not belongs to Jaipur. Q faces the person who belongs to Mumbai. The one who faces S sits to the immediate left of J.

• Question No. 84

P belongs to which one of the following cities?

Options :

1. Varanasi
2. Lucknow
3. Pune
4. Bokaro
5. None of these

Answer : None of these

- Question No. 85

Who among the following person is second to the right of Q?

Options :

1. P
2. S

- 3. R
- 4. Can't be determined
- 5. None of these

Answer : R

Direction:

Study the following information carefully to answer the given questions below-:

A is father of P who is brother in law of S. K is daughter in law of J who is grandmother of F. A has only two children one son and one daughter. B is sister in law of K. A is father in law of K. S is unmarried.

- Question No. 86

How is F related to B?

Options :

- 1. Son
- 2. Nephew
- 3. Niece
- 4. Brother
- 5. Cannot be determined

Answer : Cannot be determined

Direction:

Study the following information carefully to answer the given questions below-:

A is father of P who is brother in law of S. K is daughter in law of J who is grandmother of F. A has only two children one son and one daughter. B is sister in law of K. A is father in law of K. S is unmarried.

- Question No. 87

How is B related to A?

Options :

- 1. Son

2. Daughter
3. Father
4. Mother
5. None of these

Answer : Daughter

Direction:

Study the following information carefully to answer the given questions below

There are ten members in family M,N,O,P,Q,R,S,T,U,V. Three generations and three married couples in the family. N is maternal grandfather of S, who is sister of O. U is sister of T. Q is male. R is son in law of M, who is mother of three children. T is brother of Q and son of N, who is father in law of V, who is not married to T. U is sister in law of V and aunt of P. R has only daughter and P is not granddaughter of N. P is male

- Question No. 88

If J is married to P, then How is J related to V

Options :

1. Daughter in law
2. Sister in law
3. Father in law
4. Cousin
5. None of these

Answer : Daughter in law

- Question No. 94

If 'the last' is coded as '23~V 16%H', 'dead smuggling' is coded as '8%Z 28 ^F', then 'drop of surge' may represent which of the following code?

Options :

1. 21%Q 12+W 5&P
2. 16%S 5+N 42&Y
3. 8%L 16+U 27&I
4. Cannot be determined
5. None of these

Answer : Cannot be determined

Direction:

Study the following information carefully and answer the question given below:

Eight boxes – A, B, C, D, E, F, G and H were placed in an almirah of eight shelves. The bottom shelf was numbered 11 and the topmost shelf was numbered 18. Each of these boxes contained different amount of Sugar – 35 kg, 30 kg, 27 kg, 20 kg, 18 kg, 15 kg, 12 kg and 11 kg but not necessarily in the same order.

Box G was placed at one of the even numbered shelves and contained 27 kg of Sugar. The box which was placed on 6th shelf contained 20 kg of Sugar. Box B was placed immediately below the box which contained 18 kg of Sugar and immediately above the box which contained 12 kg of Sugar. Box C was not the lightest and Box F, was the heaviest. Box C was placed above the shelf on which Box F was placed but not on the even numbered shelf. Box A, contained 30 kg of Sugar, and was placed either at the top or bottom shelf. There are three boxes between Box F and Box D and Box D was placed below the shelf on which Box F was placed. E was placed immediately above the box which was heaviest.

- Question No. 95

How many box (es) were placed above the box which contained 35 Kg of Sugar?

Options :

1. None

2. One
3. Two
4. Three
5. More than three

Answer : Three

Direction:

Study the following information carefully and answer the question given below:

Eight boxes – A, B, C, D, E, F, G and H were placed in an almirah of eight shelves. The bottom shelf was numbered 11 and the topmost shelf was numbered 18. Each of these boxes contained different amount of Sugar – 35 kg, 30 kg, 27 kg, 20 kg, 18 kg, 15 kg, 12 kg and 11 kg but not necessarily in the same order.
