Read the following passage and answer the questions based on it.

The Gandhian philosophy of Satyagraha is a natural outcome of the supreme concept of truth. If truth is the ultimate reality, then it is imperative to safeguard the criteria and foundations of truth. A votary of God which is the highest Truth and the highest Reality must be utterly selfless and gentle. He should have an unconquerable determination to fight for the supremacy of spiritual and moral values. Thus alone can he vindicate his sense of ethical devotion.

Satyagraha means the exercise of the purest soul force against all injustice, oppression, and exploitation. Suffering and trust are attributes of soul force. The active nonviolent resistance of the 'heroic meek' makes an immediate appeal to the heart. It wants not to endanger the opponent but to overwhelm him with the over-flooding power of innocence. Satyagraha or stupendous effort at conversion can be applied against the Government, the social Czars, and leaders of 'orthodoxy'.

Satyagraha is an inherent birthright of a person. It is not merely a sacred right but it can also be a sacred duty. If the Government does not represent the will of the people, and if it begins to support dishonesty and terrorism, then it should be disobeyed. But one who wants to vindicate his rights should be prepared to bear all kinds of suffering.

There are different techniques of Satyagraha. Fasting can be one form of Satyagraha, but it has to be applied only against those who are bound by ties of close personal affection. Voluntary migration can be another form of Satyagraha. "Tyranny is a kind of plague and when it is likely to make us angry or weak, it is wise to leave the scene of such temptation," said Gandhi. He even supported Hijrat. The exodus refers to the planned flight of the Israelites. In Russia, there was the flight of the Doukhabours who were nonviolent. Gandhi would not consider the 'scorched earth policy to be a form of Satyagraha. He ruled out underground activities, even though entirely innocent, as a part of a legitimate fight for freedom based on truth and nonviolence.

- Question No. 96

According to the passage, what do you understand about the term "SATYAGRAHA".

Options :

1. Satyagraha is a technique of war.
2. Satyagraha is a kind of plague.
3. Satyagraha means the exercise of the purest soul force against all injustice.
4. Satyagraha is a weapon of violence.
- 5.
