**Given below sentence with two blanks. Below sentence are given four pair of words among which one pair might fill the blank. If none of the words fill the blank to form a meaningful sentence, choose option 5 'None of the above' as your answer.**

The mountain climber's determination to reach the \_\_\_\_\_ peak was matched by the \_\_\_\_\_ challenges of the treacherous terrain.

Options :

1. Lofty, formidable
2. Low, trivial
3. Hidden, comforting
4. Gentle, arduous
5. None of the above

Answer : Lofty, formidable

• Question No. 11

**Given below sentence with two blanks. Below sentence are given four pair of words among which one pair might fill the blank. If none of the words fill the blank to form a meaningful sentence, choose option 5 'None of the above' as your answer.**

The novelist's ability to \_\_\_\_\_ complex emotions through her characters allowed readers to \_\_\_\_\_ with the story on a personal level.

Options :

1. Suppress, disconnect

- 2. Enhance, disregard
- 3. Diminish, disregard
- 4. None of the above
- 5. Convey, empathize

Answer : Convey, empathize

• Question No. 12

Given below sentence with two blanks. Below sentence are given four pair of words among which one pair might fill the blank. If none of the words fill the blank to form a meaningful sentence, choose option 5 'None of the above' as your answer.

The art gallery featured a \_\_\_\_\_ collection of abstract paintings, each one seemingly \_\_\_\_\_ its own unique story.

Options :

- 1. Varied, narrating
- 2. Consistent, unraveling
- 3. Repetitive, duplicating
- 4. Mundane, forgetting
- 5. None of the above

Answer : Varied, narrating

• Question No. 13

Column (1)	Column (2)
------------	------------

(A) At the Venice Film Festival, where <i>The Hand of God</i> had its premiere	(D) explained in a statement how he eschewed the traps of a conventional autobiography.
(B) While a lawyer for Maradona was stated to be exploring legal action for the title	(E) after Alfonso Cuarón’s <i>Roma</i> , in which the filmmaker explored his childhood in Mexico.
(C) The Academy-Award-winning Sorrentino was inspired to make the film	(F) and Netflix responded by saying it is not a sports film.

**Options :**

1. A-D, B-E
2. B-D, C-F
3. A-F
4. C-E
5. None of these

Answer : C-E

**Direction:**

**Read the following passage and answer the below questions.**

NASA wants astronaut boots back on the moon a few years from now, and the space agency is investing heavily in its Artemis program to make it happen. It's part of an ambitious and risky plan to establish a more permanent human presence off-world. Companies such as United Launch Alliance and Lockheed Martin are designing infrastructure for lunar habitation. Elon Musk has claimed SpaceX will colonize Mars. But are any of these plans realistic? Just how profoundly difficult would it be to live beyond Earth—especially considering that outer space seems designed to kill us?

Humans evolved for and adapted to conditions on Earth. Move us off our planet, and we start to fail—physically and psychologically. The cancer risk from cosmic rays and the problems that human bodies experience in microgravity could be deal-breakers on their own. Moreover, there may not be a viable economic case for sustaining a presence on another world. Historically, there hasn't been much public support for spending big money on it. Endeavours toward interplanetary colonization also bring up thorny ethical issues that most space optimists haven't fully **grappled with**.

In 1991 eight people entered Biosphere 2 and lived inside for two years. This strange facility is a 3.14-acre oasis where scientists have re-created different terrestrial environments—not unlike an overgrown botanical garden. There's an ocean, mangrove wetlands, a tropical rainforest, a savanna grassland and a fog desert, all set apart from the rest of the planet they're mimicking. One goal, alongside learning about ecology and Earth itself, was to learn about how humans might someday live in space, where they would have to create a self-contained and self-sustaining place for themselves. Biosphere 2, located on Biosphere 1 (Earth), was practice. The practice, though, didn't quite work out. The **encapsulated** environment didn't produce enough oxygen, water or food for the inhabitants—a set of problems that, of course, future moon or Mars dwellers could also encounter. The first mission and a second one a few years later were also disrupted by interpersonal conflicts and psychological problems among the residents.

Today the people who participate in projects like Biosphere 2—simulating some aspect of long-term space travel while remaining firmly on Earth—are called analog astronauts. And although it's a niche pursuit, it's also popular: There are analog astronaut facilities in places such as Utah, Hawaii, Texas and Antarctica. People are building or planning them in Oman, Kenya and Israel. And they all share the goal of learning how to live off Earth while on Earth.

- Question No. 14

What was the one problem encountered during the Biosphere 2 project?

**Options :**

1. Insufficient funding
2. Ineffective technology
3. Interpersonal conflicts and psychological problems
4. Failure to recreate terrestrial environments accurately
5. None of these

Answer : Interpersonal conflicts and psychological problems

Direction:

D	1100	5:6
E	800	2:3

- Question No. 22

For company 'F', number of male employees and number of female employees are 60% less and 50% less than respective number of male and female employees in company 'A'. Find total number of employees (male + female) in company 'F'.

Options :

1. 540

2. 640

3. 500

4. 620

5. None of these

Answer : 640

Direction:

The table given below shows the total number of Male and Female employees in five different companies ('A', 'B', 'C', 'D' and 'E'). It also shows the ratio of the number Male employees to female employees in each company

Company	Total number of employees	Ratio of number of male to number of Female
A	1440	5:4
B	1680	7:5
C	1200	11:9
D	1100	5:6
E	800	2:3

- Question No. 23

Find the average number of Female employees in company 'C' and 'D' together

Options :

1. 256
2. 440
3. 570
4. 620
5. None of these

Answer : 570

Direction:

The table given below shows the total number of Male and Female employees in five different companies ('A', 'B', 'C', 'D' and 'E'). It also shows the ratio of the number Male employees to female employees in each company

Company	Total number of employees	Ratio of number of male to number of Female
<b>A</b>	1440	5:4
<b>B</b>	1680	7:5
<b>C</b>	1200	11:9
<b>D</b>	1100	5:6
<b>E</b>	800	2:3

- Question No. 24

Out of all the Male employees in company 'E', 35% employees like coffee. Find the number of male employees who like coffee in company 'E'.

Options :

1. 120
2. 112
3. 180
4. 175
5. None of these

Answer : 112

Direction:

The table given below shows the total number of Male and Female employees in five different companies ('A', 'B', 'C', 'D' and 'E'). It also shows the ratio of the number Male employees to female employees in each company

Company	Total number of employees	Ratio of number of male to number of Female

**In the questions, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.**

- Question No. 26

I.  $p^2 - 6p + 8 = 0$

II.  $2q^2 - 19q + 45 = 0$

Options :

1.  $p > q$
2.  $p < q$
3.  $p = q$  or the relationship cannot be established
4.  $p \geq q$
5.  $p \leq q$

Answer :  $p \leq q$

Direction:

**In the questions, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.**

- Question No. 27

I.  $2p^2 - 9p + 4 = 0$

II.  $2q^2 + 7q - 4 = 0$

Options :

1.  $p > q$
2.  $p < q$
3.  $p = q$  or the relationship cannot be established
4.  $p \geq q$
5.  $p \leq q$

Answer :  $p \geq q$

Direction:

**In the questions, two equations I and II are given. You have to solve both the equations to establish the correct relation between x and y and choose the correct option.**

- Question No. 28

I.  $p^2 - 5p - 25 = 25$

II.  $q(q - 9) = 36$

**Options :**

1.  $p > q$
2.  $p < q$
3.  $p = q$  or the relationship cannot be established
4.  $p \geq q$
5.  $p \leq q$

Answer :  $p = q$  or the relationship cannot be established

Direction:

**In each of these questions, two equations (I) and (II) are given. You have to solve both the equations and give answers.**

- Question No. 29

(I)  $P^2 - 66P + 1088 = 0$

(II)  $Q^2 - 66Q + 1080 = 0$

**Options :**

1.  $P > Q$
2.  $P=Q$  or relation cannot be established
3.  $P \geq Q$
4.  $P < Q$
5.  $Q \geq P$

Answer :  $P=Q$  or relation cannot be established

**Find the wrong number in the given number series**

- Question No. 32

3, 4, 9, 28, 116, 566, 3397

Options :

1. 3
2. 566
3. 116
4. 28

5. None of these

Answer : 116

• Question No. 33

'A' sold an article whose cost price is Rs. 'Y', at a profit of 25% to 'B'. 'B' marked the price of the article 25% above the price at which he bought it from 'A' and sold it for Rs. 8,100 after giving a discount of 10%. Find the value of (Y - 4,000).

**Options :**

1. 5,760
2. 1,560
3. 1,760
4. 12,760
5. None of these

Answer : 1,760

• Question No. 34

An equal sum of money is invested in two schemes which offer interest at the same rate but one at simple interest and the other at compound interest (compounded annually). Simple interest and compound interest received at the end of 2 years is Rs. 1,800 and Rs. 1,980, respectively. Find the rate of interest.

**Options :**

1. 24%
2. 20%
3. 12%
4. 18%
5. None of these

Answer : 20%

- Question No. 35

Currently, Shweta and Rajni's ages are in the ratio of 5:4. Five years from now, the ages of Priya and Rajni will have a ratio of 7:5. Gautam is 10 years older than Priya. The average current age of Shweta, Rajni, Priya, and Gautam is 28.75 years. Determine Gautam's age five years ago.

**Options :**

1. 35 yrs
2. 28 yrs
3. 12 yrs
4. 30 yrs
5. none of these

Answer : 35 yrs

- Question No. 36

When 10 litres of water is added to a mixture of milk and water, the ratio of quantity of milk and water becomes 4:5. Instead, if 20 litres of water had been added, then the ratio of quantity of milk to that of water would become 3:4. Find the quantity of milk in the initial mixture.

**Options :**

1. 136
2. 187
3. 120
4. 110
5. None of these

Answer : 120

- Question No. 37

The ratio of two natural numbers 'u' and 'v' is 3:4, respectively. When 12 is added to 'u' and 8 is subtracted from 'v', the ratio of 'u' to 'v' becomes 5:4. Find the square of the difference between the two numbers.

**Options :**

1. 112
2. 111
3. 121
4. 221
5. None of these

Answer : 121

Direction:

**Study the information given below and answer the following questions**

Three gardens, 'A', 'B', and 'C', have different numbers of flowers (Roses + Jasmynes) with them. The ratio of the number of Roses in Garden 'A' to the number of Jasmine flowers in Garden 'C' is 2:3, respectively. The number of Jasmine flowers in Garden 'B' is 25% more than the number of Roses in Garden 'C'. The total number of flowers (Roses and Jasmine) in Gardens 'A' and 'B' are the same. The number of Jasmine flowers in Garden 'A' is 8 more than the number of Roses in it. The number of Roses in Garden 'B' is 40% less than the number of Jasmine flowers in it. The total number of flowers (Roses and Jasmine) in Garden 'C' is 144.

- Question No. 38

In Gardens 'A', 'B', and 'C' together, find the difference between the total number of roses and jasmine flowers.

**Options :**

1. 27
2. 62
3. 52
4. 45
5. None of these

Answer : 62

Direction:

- Question No. 40

What percentage more are the number of jasmine flowers in Garden 'C' compared to the number of rose flowers there?

**Options :**

1. 40%
2. 25%
3. 20%
4. 12%
5. None of these

Answer : 40%

• Question No. 41

Who among the following is the only Indian who has won the Abel Prize for the year 2023?

**Options :**

1. Manjul Bhargava
2. Srinivasa Ramanujan
3. C.R. Rao
4. Satyendra Nath Bose
5. None of the above

Answer : C.R. Rao

• Question No. 42

Which among the following organizations is the regulator for Real Estate Investment Trusts (REITs)?

**Options :**

1. RBI (Reserve Bank of India)
2. IRDAI (Insurance Regulatory and Development Authority of India)
3. PFRDA (Pension Fund Regulatory and Development Authority)
4. SEBI (Securities and Exchange Board of India)
5. Ministry of Finance

Answer : SEBI (Securities and Exchange Board of India)

- Question No. 43

Which was the first Indian city to be included in the UNESCO City of Literature list?

**Options :**

1. Mumbai
2. Kolkata
3. Chennai
4. Kozhikode
5. Bengaluru

Answer : Kozhikode

- Question No. 44

Which country will host the FIFA Women's World Cup in 2027?

**Options :**

1. Germany
2. Brazil
3. Australia
4. Canada
5. France

Answer : Brazil

- Question No. 45

Which of the following documents cannot be uploaded on the DIGI Locker platform of the Government of India?

**Options :**

1. Aadhar Card
2. PAN Card
3. Property Sale Deed

4. Driving License
5. Education Certificates

Answer : Property Sale Deed

- Question No. 46

What is the annual income limit for filing ITR-4?

**Options :**

1. ₹20 Lakh
2. ₹30 Lakh
3. ₹40 Lakh
4. ₹50 Lakh
5. ₹60 Lakh

Answer : ₹50 Lakh

- Question No. 47

Who promoted Central Depository Services (India) Limited (CDSL)?

**Options :**

1. RBI (Reserve Bank of India)
2. NSE (National Stock Exchange)
3. BSE (Bombay Stock Exchange)
4. NSDL (National Securities Depository Limited)
5. SEBI (Securities and Exchange Board of India)

Answer : BSE (Bombay Stock Exchange)

- Question No. 48

Which eminent children's filmmaker has become the first Indian to be conferred with South Africa's prestigious 'Nelson Mandela Lifetime Achievement Award'?

**Options :**

1. Amole Gupte
2. Vinod Ganatra
3. Vishal Bhardwaj
4. Ketan Mehta
5. Satyajit Ray

Answer : Vinod Ganatra

• Question No. 49

Which company has launched the world's first large-scale 100% hydrogen-ready engine power plant?

**Options :**

1. General Electric
2. Siemens
3. Wärtsilä
4. Rolls-Royce
5. Mitsubishi

Answer : Wärtsilä

• Question No. 50

Who is the most valuable personality according to Kroll's latest celebrity brand valuation?

**Options :**

1. Shahrukh Khan
2. Virat Kohli
3. Deepika Padukone
4. Amitabh Bachchan
5. Mahendra Singh Dhoni

Answer : Virat Kohli

- Question No. 51

Established incubation centers in the Atal Innovation Mission are operationalised within how many years?

**Options :**

1. 1 year
2. 2 years
3. 3 years
4. 4 years
5. 5 years

Answer : 3 years

- Question No. 52

What is the maximum limit to invest in NSC (National Savings Certificates)?

**Options :**

1. ₹1 Lakh
2. ₹5 Lakh
3. ₹10 Lakh
4. ₹50 Lakh
5. No upper limit

Answer : No upper limit

- Question No. 53

The world's highest bridge is built on which river?

**Options :**

1. Ganga
2. Yamuna
3. Chenab

4. Brahmaputra

5. Sutlej

Answer : Chenab

- Question No. 54

What does the 'S' stand for in SID?

**Options :**

1. System

2. Scheme

3. Security

4. Service

5. State

Answer : Scheme

- Question No. 55

Which statement is incorrectly related to Recurring Deposit?

**Options :**

1. Fixed monthly investments

2. Flexible interest rates

3. Fixed tenure

4. Premature withdrawal allowed

5. Interest earned is taxable

Answer : Flexible interest rates

- Question No. 56

Which of the following is not among the list of special category states under the National Electricity Fund Scheme?

**Options :**

1. Assam
2. Himachal Pradesh
3. Uttarakhand
4. West Bengal
5. Jammu & Kashmir

Answer : West Bengal

• Question No. 57

Which of the following are members of the Bank of International Settlements (BIS)?

**Options :**

1. USA
2. India
3. China
4. Japan
5. All of the above

Answer : All of the above

• Question No. 58

How many Indian women won medals in the Arm-Wrestling Asian Championship?

**Options :**

1. 3
2. 5
3. 7
4. 9
5. 11

Answer : 7

- Question No. 59

Which country is not among the top 5 in the Travel and Tourism Index?

**Options :**

1. France
2. Spain
3. USA
4. China
5. Japan

Answer : China

- Question No. 60

Which of the following statements best describes Stagflation?

**Options :**

1. An economic situation with high inflation and high unemployment
2. A period of low inflation and low unemployment
3. A scenario with high economic growth and low inflation
4. A phase characterized by low economic growth and low inflation
5. None of the above

Answer : An economic situation with high inflation and high unemployment

- Question No. 68

How many people sit between E and F?

**Options :**

1. None
2. One
3. Two
4. Three
5. None of the above

Answer : One

Direction:

Directions: In each question below is given a passage followed by some inferences. You have to examine each inference separately in the context of the passage and decide upon the degree of truth or falsity of the inference.

Mark answer

Introduction: Inference is a conclusion drawn on the basis of knowledge of facts available. In questions on INFERENCES, a paragraph is followed by few Paragraphs. On the basis of the information given in the passage, we have to check the truthfulness or falsity of the given Paragraph. Each Paragraph can be put into one of the four categories.

definitely true

probably true

probably false

definitely false

**Paragraph :**

After the swarm had entered Rewari on Friday evening, the Gurgaon administration had issued an advisory, asking farmers to keep water pumps handy so they could spray the locusts if they descend on the ground. The agriculture department had also kept 200 tractor trolleys ready to spray chlorpyrifos on the insects.

- Question No. 69

**Inferences:**

Locusts damage the crops and the agricultural fields.

**Options :**

1. if you think that the answer is definitely true.
2. if you think that the answer is probably true.
3. if the data provided is inadequate to answer the question.
4. if the answer is definitely false.
5. if the answer is probably false.

Answer : if you think that the answer is probably true.
